

Creating a New Vision for Humanity

TORKOM SARAYDARIAN

A Few Words From The Publisher

We are thrilled to bring you this latest book by Torkom Saraydarian. Reading these pages will give you the hope and faith of a great future awaiting you.

This book is about spiritual VISION. Torkom describes, page after page, chapter after chapter, what is the meaning of vision, why we need to consider it, how it is given to us, and how it manifests itself. He helps us distinguish between true vision and distorted vision. Distorted vision creates fear and chaos. True vision helps us create harmony and beauty. These pages guide us from chaos to Beauty.

Humanity is linked today in ways our parents never thought possible. But, the Teaching always emphasizes that we are one body, one humanity, one Self. As a result, when we hear about fear and failure, that energy runs rapidly within the body of humanity and makes us lose our magnetism. When we hear about vision, the possible, the joy, the triumph of the human soul, that also runs rapidly within the body of humanity and brings growth and expansion in us.

Unfortunately, we do not hear much of the latter but more of the former. Humanity is in desperate need to hear about spiritual vision and how to achieve it. If we as students of the Ageless Wisdom read these pages, think about them, transmit them in our thoughts and actions, and manifest them in our lives, little by little, the energy currents running through us to all of humanity will increase in speed and expand its influence on life.

Life changes only when individuals make the effort to make the change.

Torkom advises us, over and over, to take charge of our lives, to make plans and goals, to take steps, to heal, to change our self-image, to serve others, to give and to be a blessing for others.

As I read these pages, I noticed how smoothly the pages unfolded before me. I felt a quickening in my heart, a feeling of wanting to contact a vision and grab onto it and never let it go; a vision that cannot be drowned by fear, that will always rise to the top, that will call us to reach for it, to actualize it, to make it our own.

We need to read these pages, understand, digest, and actualize them in our life. For without vision, we are like dry leaves that fall here and there and are eventually lost to the life. With vision, we change our life.

Torkom shows that every person in the world can and should make changes. Much of the writing in this book he gave as lectures, seminars, and brief essays. He gives us hope, faith, optimism, and joy. We have gathered all these writings and transcriptions and organized them by subject and also when possible, in date order. Wherever we found the dates, these are noted. Where we did not find the dates, the chapters were placed in order that made most sense to unfold the narrative.

This book has inspired me to deepen my vision for my life and for TSG Foundation. I hope you too are inspired to find your vision, seize it, and make the needed changes to actualize your vision.

When you are having a birthday, a special event in your life, at the time of a New Year, choose some chapters and read them and put the advice into practice. If you have friends or family members who are making changes in their life, inspire them with this book and help them see the importance of having a vision.

We hope you deepen and expand your vision, for this life and for all lives to come.

With love and joy,

Gita Saraydarian
