

“When we follow the Teaching, we will create the space we need to continue the work that Torkom so lovingly, faithfully, and selflessly started for all of us.”

A Letter from Debbie Moshenrose

Dear Friends and Supporters of TSG,

I have worked at TSG for nearly a decade. I have been so moved by the outpouring of love by those who have been touched by Torkom. I receive many phone calls, emails, and letters from people all over the world who are so grateful for how the Teaching and specifically Torkom's books have changed their lives.

How did I end up here? Why am I in this unbelievable position of helping to make Torkom's dreams become a reality? At one time in my life, I found myself in a horrible state. The strangest part was that nothing was outwardly wrong. In fact, I had everything I had ever dreamed. Yet, there was a small voice inside me telling me that all was not as it seemed. I felt like a bird caught in a gilded cage. There was a part of me that knew I had built that cage, but I had no idea of how to get out of it. There seemed to be no way out. That is when I decided I needed some spiritual guidance.

I googled Ageless Wisdom and found TSG, which was less than 5 miles from my home! I started reading the website and was very impressed with TSG University. The course catalog was very organized and the coursework was very practical. I knew I could easily follow the outlined courses of study, eventually earning an advanced degree. I called and made an appointment with Gita. Gita gave me a free copy of *Sex, Family & the Woman in Society*. I read that book cover to cover then I began coming to Full Moon meetings. I volunteered once a month to

send out the “TSG Outreach” newsletter. At one of the Full Moon meetings, Gita asked me if I was looking for a job. I had just quit my job and was actually available to work. After some quiet internal inquiry, I decided to take the job as a part-time bookkeeper. Looking back, it seemed like a rather ordinary choice. I truly had no idea of the treasure house I was walking into.

Gradually, I extended my hours and began to work full time for TSG. I also started to take TSG University courses. After reading more of Torkom's books, I developed a deep appreciation for their depth as well as their simplicity. Torkom took the mystery out of the mysterious happenings in my life and filled me with the deeper mystery of becoming my true Self. It is astounding the stability I have enjoyed as a result of my study and meditation practice using Torkom's books and Gita's methods. I have also seen the lives of so many people enriched and strengthened as evidenced by both handwritten letters and interacting with the people involved with TSG. For example, every year at Wesak, I see the steady, unfaltering growth of every single person and it never ceases to amaze me.

I believe our new TSG Center has already been created in the other worlds. We only need to manifest it. How do we do this? We follow the Teaching as Torkom taught. When we follow the Teaching, we will create the space we need to continue the work that Torkom so lovingly, faithfully, and selflessly started for all of us. The last ten years of work at TSG have flown by quickly and yet so much has been accomplished! I've seen so many lives

changed and so many hearts opened. I have witnessed amazing acts of generosity and support. I watch as people scrape by over the years and save their precious resources to bring us gifts. I know so many people who get by on so little and yet find it in their hearts to share what they have. I've known people who made us a part of their last wishes and passed on their life's work and savings to TSG. All of these people and gestures are sparkling stars in my heart. I feel their presence every day that I open the doors of TSG and get to work.

Your gifts, kind words, and appreciation of our work are always so apparent. It gives me so much hope for our collective future, no matter what the media would rather have us believe. I bear witness to the magic of transformation and the greatest power for good in the world in the hearts of all of you. I congratulate you. I'm sure Torkom would agree that his life's work is in good hands – your hands.

With much love and gratitude,

Debbie Moshenrose
