

“I was inspired by the Teachings and their simple presentation by Torkom...”

Article by
Sai Reddy

Sai Nandan Reddy joined the TSG Community in 2016. He first joined as a student in the 5-year Stepping into the Teaching program. Sai's enthusiasm was apparent when he began talk of opening his own center in India. Sai achieved his goal! He is the director and founder of the Initiatic School and Publishing in Hyderabad, India. Learn more about Sai and the Initiatic School at initiaticschool.org.

Aspire to Be a Disciple

A practicing disciple is a person who knows that there is a great future ahead awaiting to reach him in this present moment. He knows that actualizing this great future is his one and only way out of confusions, doubts, sadness, insecurity, fears, anxiety, illusions, glimmers, and addictions in his current life. An aspirant falls many times but manages to rise again. Much time is consumed before an aspirant becomes serious enough to dedicate himself completely to the path leading towards actualization of his divine inner potentials. At this stage, he is no longer an aspirant but becomes a disciple.

A practicing disciple is joyous as he is investing his valuable time towards working slowly but steadily towards knowing himself and actualizing his divine inner potentials. Being a practicing disciple is not a ten minutes or forty minutes job but it's a 24x7 job.

Discipleship in Action

During the past two years in the months of October-November, we were fortunate enough to purchase and import hundreds of Torkom sir's books from TSG Foundation to India. These were ordered by my students and other spiritual enthusiasts in India.

I sincerely thank Gita Saraydarian mam for providing us with a discount on the books, music and DVDs on the auspicious occasion of Torkom sir's birthday, November 1st.

These books are a treasure for those who are serious enough to strive and transform themselves and inspire others towards leading a spiritual lifestyle. I heavily recommend Torkom sir's literature.

Establishment of the Initiatic School & Publications

I was inspired by the Teachings and their simple presentation by Torkom sir so deeply that I wanted them to be available to one and all who truly want to transform themselves, their families, and humanity. This made me establish a center for personality and spiritual growth in Hyderabad, India by the name Initiatic School in May 2018.

The school's vision is to help individuals develop group consciousness through inner transformation which should lead towards spiritual, social, economic, scientific, artistic, religious, and educational growth within their families, groups, and workplaces.

In this regard, we are approaching individuals, corporates, schools, and government institutions to introduce them to Meditation and Ageless Wisdom through various courses, daily seed thought meditation, and conducting workshops. We have also incorporated Initiatic Publications to make available the Teachings of Torkom sir across India in multiple languages.

I am thankful to masters, my students and well-wishers towards helping me purchase a permanent center for Initiatic School and Publications this year. We have printed Torkom sir's three titles (booklets) in Hindi and others are in the pipeline. This year is going to be very exciting as we plan to launch many titles and introduce the Teachings to various institutions.

I am so blessed being a student of the Teachings through TSG Spiritual University. I thank Gita ma'am and TSG Foundation for their support towards Initiatic School & Publications.
