Schools of wisdom must be reestablished everywhere in the world, as they were ten thousand and fifteen thousand years ago, teaching the science of living on earth and the science of contacting the Higher Worlds.

Welcome Letter From The Director—

Gita Saraydarian

Welcome to TSG Spiritual University!

Torkom Saraydarian dreamed of a training center, often calling it the University, where men and women can be trained in the theory and application of Higher Principles and Values of the Ageless Wisdom. He called such higher education “Aquarian Education” and continuously encouraged all his students to form such institutions in the future. He wrote more than 100 books and booklets, and left hundreds of recorded audio and videotape lectures and music as rich resources to be used for future training centers. He often said that his work was a wealth of information that needs to be used to form a variety of training programs. He laid the foundation and asked us to expand into the next phase of the work.

Here is a brief history of our foundation:

I have been interested in education my entire life. It is a dream come true to have my passion for the Teaching manifest into a spiritual training center based on my father’s writings. I began to teach classes at the Aquarian Educational Group in Agoura in 1984. I made a formal plan for my own spiritual education and attended seminars and conferences for further training given by Torkom. I also began to make plans on how I thought the Teaching should be taught and spread throughout the world.
In 1987 TSG Publishing Foundation was founded and soon I began to teach additional classes in my home. I have always valued a logical, practical, and sequential approach to the study of the Teaching. A curriculum was created to reflect this developmental approach. The vision was to design a curriculum that would train teachers and expose more people to the Teaching nationally and internationally. I began discussions and correspondence with Torkom regarding the creation of a university curriculum and the comprehensive training of teachers. This resulted in the writing of extensive plans for training and managing a university beginning in 1988.

In 1994, TSG moved to Arizona and many classes were presented in bookstores throughout Phoenix. Meditation courses were organized and our first correspondence courses became available in the summer of 1994. As soon as we had internet access in 1997-1998, we began to e-mail lessons to students all over the United States, Europe, and South America. I added new meditation courses and expanded these lessons to include more subjects.

After Torkom Saraydarian passed away in January 1997, I began to expand the TSG Spiritual University plans and wrote a more detailed curriculum. Intensive writing and planning followed and in January 2000 I had an operating plan for the University. My vision was taking on a more complete form as I incorporated the new programs and courses into the meditation courses created by Torkom Saraydarian. In June of 2000, I presented the first catalog and plans to a select number of friends and supporters. More fine-tuning followed and finally I was ready to launch the formal program of classes. We began our first class in September 2000 at the TSG Center and by e-mail in the USA and in Europe. We gave our University the name of The Torkom Saraydarian University.

In 2006, the TSG Board of Directors agreed to change the name to TSG University, Torkom Saraydarian Spiritual Training Center, to more fully describe our purpose and direction. In 2018, the name was changed to TSG Spiritual University.

We also began funding a scholarship program. Our tuition is affordable and scholarships are available to any seriously interested person who demonstrates determination and focus. Contributions to the scholarship program are greatly appreciated. A special fund may be created in the name of a family member or friend and linked to our programs.
Scholarships are paid directly to the TSG Spiritual University programs and not based on providing cash to the student. Please see the application documents for how to qualify for a partial or full scholarship.

Our classes expanded and we created a simple but effective online TSG Spiritual University website. We are continuously in the process of updating our website, adding new courses, and supporting the spiritual needs of students from all parts of the world.

Torkom wrote the following about spiritual education:

There is an increasing need for leadership in the field of esoteric knowledge. More and more people are becoming disillusioned with the teachings given to them by opportunists, by people who have good intentions but are full of glamors and vanities, or by people who want to use the Teaching as a business to raise money.

Great damage is done to people who approach the Teaching with sincerity in their heart and are caught in groups, institutions, or organizations that are only for social activities or that function as traps for exploitation. Some of these searchers gradually forget about their quest and adapt themselves to their environment. Some of them totally suppress their aspiration and spiritual striving because of their disillusionment. Only a small percentage, through discrimination, continue their search to find the proper field where they can grow and serve.

The number of true searchers is increasing. We must prepare ourselves to meet their need and at the same time safeguard ourselves from the dangers of falling into vanities, glamors, or of using the searchers for our own interests.

Leadership Vol. I, p. 16

Our focus is on practical self-transformation through the study of the Ageless Wisdom. We emphasize natural development and a sane approach to the spiritual Teachings. We do not make claims or impose any one belief system. Students begin their training by focusing on Torkom’s works and add readings from the great works of Alice A. Bailey, Helena Roerich, and H. P. Blavatsky. As
students advance, they are encouraged to read from world classics in religion and philosophy.

Our courses consist of reading, meditation, listening to recorded lectures, self-observation, and writing reports. Each student is empowered to be an active participant to transform himself or herself. Students are encouraged to study current events and see the thread that unites the principles of the Teaching with the rapidly changing face of world events. Our aim is to help develop critical thinkers who are able to use the wisdom of Great Sages and incorporate this wisdom into their daily life.

It is my joy to present to you our courses of spiritual study. We look forward to helping you fulfill your spiritual dreams.

Gita Saraydarian / Founder & Director

About The Founder & Director
Gita Saraydarian

Gita Saraydarian is the daughter of world renowned author & lecturer Torkom Saraydarian.

She is the founder and president of TSG Publishing Foundation, Inc. and TSG Spiritual University in Cave Creek, Arizona.

Her educational background includes a Master of Arts degree in Law and Diplomacy from Tufts University (Fletcher School of Law and Diplomacy); a Master of Arts Degree in History; and a Bachelor of Arts degree in Cultural Anthropology and Linguistics from California State University Northridge. Her focus in academic training was on China and its relations with the United States. In 1987 she founded the TSG Publishing Foundation, Inc, and began to publish and teach her father’s books. In 2000, the TSG Spiritual University was launched, and it continues to thrive today.

In 1984 she began to lecture on the Ageless Wisdom and slowly expanded these classes. She added courses by correspondence, and gave seminars in various cities in the United States and abroad. In the year 2000, the courses were further organized, and formed the foundation of TSG Spiritual University.

In November 2003 Gita was ordained as a minister in the Temple of the Ageless Wisdom and performs various pastoral duties.

Gita Saraydarian was appointed by Torkom Saraydarian as trustee for the Creative Trust, the copyright division of Torkom’s Creative Works. She continues to manage the copyright and translation activities.

Her thoughts about life and its relationship to the Ageless Wisdom are summed up as follows:

In my whole life I have seen how much good a human being can do when in touch with his or her soul purpose. I have also witnessed how much damage a human being can do when living and acting out of ego and self-deception.

Greatness does not grow simply as a result of our birth or privileged background, but rather from the striving to surpass and improve on that imprint of our culture.

In every culture, we find the essential and eternal values that honor life. We also find in all cultures constricting elements that
reject eternal values. When a society embraces the culture of fear and rejection, the result is separatism, isolation, and the demonization of human beings.

Spirituality and religious beliefs may be used to inculcate a society in eternal values, or to isolate, divide, and control a society by material and restrictive values. Decisions made in any field of human endeavor are always controlled by the values that we hold dearest to our hearts.

The purpose of human beings is to find the most essential and eternal values and live by them; it is to become instruments of Divine Love, Divine Intelligence, and Divine Will.

The Ageless Wisdom provides the philosophical foundation upon which this transformative process can take place. It is not separate from daily life but an integral part of it. Each of us has a tremendous capacity for greatness, yet we chain ourselves to a mediocre existence through ethnic, national, cultural, social, family, and personal mindsets.

Who and what we are is hugely influenced by our background; but we cannot forget that we are also human souls, and that the greatest and most lasting part of us does not belong to any particular color, religion, nationality, or culture. The human soul is on a journey of perfection, hence incarnates in myriad nations, cultures, languages, and religions. We can express ourselves in any culture, any religion, and any nation without losing our divine heritage. We can use who we are to bring transformation into our community and society and, in the meantime, not forget the greater community of the human family in which we live. Ultimately, we can use who we are and all the potentials hidden in us to be great human beings with unlimited creative expression when we surpass our limited self-identities.

The purpose of TSG Spiritual University is to educate the hearts and minds of women and men to live according to the principles of Beauty, Goodness, Righteousness, Joy, and Freedom. The purpose of TSG Spiritual University is to encourage each individual to strive toward perfection and serve others in order to find their own True Selves. The purpose of TSG Spiritual University is to provide spiritual education that helps each person develop the inner psyche, the human soul.

The purpose of TSG Spiritual University is to help individuals develop critical thinking, the ability to learn the greater principles and see how these operate daily in all fields of human endeavor. It is to create an inner awareness that opens our minds and hearts to the daily activities of human beings. Being informed and well-educated, each individual will uplift life and bring to humanity the realities and truths from the Higher Worlds.

We are souls on a great journey back home; we are one in Essence.

We believe that life is an open system, change and growth are possible, and the future is determined by what we do and do not do. Human beings can change, heal, and grow if they strive to make strategic and factual changes in their daily life.

Humanity can be changed one person at a time. When each individual takes personal responsibility for understanding and implementing the higher principles in the objective life, we see a better life on Earth. A better life means a life of health, happiness, prosperity, and success. The Ageless Wisdom Teachings provide materials that enable us to live an authentic, creative, and a deeply satisfying life.

The training offered at TSG Spiritual University has the following objectives:

> To provide tools to transform yourself by learning to create a healthy physical, emotional, and mental life.

> To help you learn the principles of higher virtues and how to apply these in your daily life.

> To help you develop a personal philosophy that results in a happy and joyful life.

> To help you learn about the laws of nature and how the non-material and material worlds operate.

> To provide a community of like-minded individuals.

A four-part program designed to give you a basic course in the study of Esoteric Science. These four topics help you find the right balance and anchorage for advanced studies. Each course consists of six lessons. The topics are:

- **T001: The Meaning of Joy & Healing** - (6 lessons)
- **T002: The Meaning of Prosperity** - (6 lessons)
- **T003: Developing the Sense of Responsibility** - (6 lessons)
- **T004: Cooperation & Group Consciousness** - (6 lessons)

These four essential subjects help students to be emotionally, mentally, and spiritually ready for more intensive esoteric work. When we understand these four topics intellectually and then actualize them in our daily life, our vehicles are ready to take on the challenges of more intensive esoteric work.

Students who are sensitive to spiritual Teachings often become more sensitized as they meditate and study. The study and implementation of these subjects provides the inner compass to develop deep compassion toward all of life, understand one’s own responsibility, and understand how each individual fits into the larger tapestry of life.

A **Certificate of Completion** is awarded upon the completion of all four sections T001-T004.
T001: The Meaning of Joy & Healing

The six lessons in this course take the student through the book *Joy and Healing* with daily reading and exercise assignments. The student is instructed to complete the exercises given in each of the lessons and write a summary of each lesson. The objective of the course is to help the student cultivate the virtue of joy in his or her life and discover the fountain that gives rise to joy. This is a most important virtue in the life of the spiritual student.

When a person starts training in the spiritual Teachings, it is important to have the ability to be joyful and to go through the challenges of spiritual discipline with the fountain of joy. When we have joy in our lives, nothing will be able to stop our progress; we will be able to understand life and its challenges from the larger perspective and will be able to keep our balance in the midst of turmoil.

*Joy and Healing* will give you many tools in the form of exercises and visualizations that will help uplift you, bringing you peace and serenity. It will help you build a new identity. The benefit of this course will remain with you for the rest of your life. This course is especially suitable for those who want to release past traumas and re-experience the joys they once had.

**Required text:** *Joy and Healing* by Torkom Saraydarian.

**NOTE:** If you wish to take an in-depth course in *Joy and Healing*, you may opt to take the 18-part joy meditation course titled “Change Your Life with Joy and Healing.” If you have already taken this 18-part course, you do not need to take this six-part course and may move to the next course in this series or preparation.

T002: The Meaning of Prosperity

The true meaning of prosperity is physical, emotional, mental, and spiritual riches. All of us have such riches, yet we are rarely aware of them. This six-part course helps the student first learn about his own riches and then discover the true riches of the universe and how they can be manifested in his own life. The course covers the physical, emotional, mental and spiritual virtues that are necessary for true prosperity.

All spiritual students must be clearly aware of the energies of the universe and how they translate into abundance. The student is helped to understand the laws of prosperity that bring abundance in every facet of life.
Introduction To The Ageless Wisdom (continued...)

Studying these lessons, the student becomes aware of a wider definition of prosperity and abundance. This in turn helps the student to keep his balance and serenity in the face of challenges in life.

**Required text:** *Spring of Prosperity* by Torkom Saraydarian.

---

**T003: Developing the Sense of Responsibility**

This six-part course introduces the student to the topic of individual and social responsibility. The lessons contain exercises on developing responsibility in speech, action, thought, and feeling. In addition, the student learns how to recognize the divinity in others in practical terms and think of others as brothers and sisters.

There are practical tools for dealing with striving and how to deal with spiritual saturation, shame, and backsliding.

The course concludes with the study of the virtues of service and generosity, as well as exercises on how to increase your light.

When you complete this course you will have practical tools to help you safely expand in your spiritual development. These tools will help keep you grounded, practical, and loving toward your fellow travelers.

**Required text:** *The Sense of Responsibility in Society* by Torkom Saraydarian.

---

**T004: How to Create Cooperation & Group Consciousness**

This six-part course takes the student, step by step, on the journey of true self-discovery. When we discover just how we, as individuals, fit into the larger tapestry of life, we become expanded and compassionate. In becoming group conscious, we do not lose our individual identity, but learn to appreciate our particular gifts and how these gifts, in a group setting, can be magnified and made more useful. In learning to cooperate with others, we become better friends, better family members, and better team players.

The principles that operate the mystery of true cooperation and group consciousness are seen in the Law of Cooperation. This course will cover the meaning of group consciousness, competition vs. cooperation, the deeper layers of friendship, and the steps to becoming a truly considerate person.

**Required text:** *Psychology of Cooperation & Group Consciousness* by Torkom Saraydarian.
The Foundation

It is important to establish a firm foundation for meditation and mental focus. Meditation is suitable for all students who wish to establish a daily ritual of prayer, reading, and focused study and thinking.

Meditation courses are self-directed. They are composed of multiple lessons, each for one month. The student is required to post monthly lesson summaries and responses online. A mentor is assigned for each student. A mentor’s work involves reading and responding to each lesson. Mentors are also available for additional questions or consultations as needed.

Courses require a daily commitment of 10-20 minutes and monthly reporting. The focus is to help each person learn to build a daily process, learn how to concentrate, understand terms in the Teaching, learn to journal, and learn to summarize the month’s work. Each course focuses both on process and content. The growth is steady and gradual as the student develops a daily practice and slowly trains the physical, emotional, and mental bodies to cooperate and integrate.

Our meditation courses are not designed for instant results, but for the steady progress of unfoldment and a deepening sense of connection with the content of the Ageless Wisdom.

Seed Thought Meditation

Available in five levels, the courses are designed using the seed thought meditation technique. This approach is the most significant tool to develop a high level of critical thinking, creative mental work, and expansion of consciousness.

What is Seed Thought Meditation

Seed thought meditation involves taking an aspect of the Teaching, a word, phrase or sentence, and thinking about it in order to understand it from as many angles as possible.

Seed thought meditators typically consider the physical, emotional, and mental forms of a seed thought, its quality and effect on life, its purpose, and how it is
created or brought about. This process requires deep thinking, and thinking in layers. It is not mastered quickly, it is not having a blank mind, and it is not surface thinking.

In these meditation courses, the student develops the process of thinking slowly and sequentially. The process typically involves changing one’s patterns of thinking away from automatic thoughts as well as away from wandering in imagination or making the mind blank. The meditator opens new areas of the mind and develops new ways of thinking and observing the world. The result is a sense of depth and sharpened powers of observation.

Seed thought meditation is the foundation of spiritual education. The process is often referred to as “occult meditation” or “esoteric meditation.” Another way to describe these courses is meditation to create healthy, contiguous thought processes. Contrary to many meditation practices commonly used today, seed thought meditation is the process of developing critical thinking. Seed thought meditation is an advanced technique originally taught thousands of years ago by the Great Sage, Patanjali. It involves thinking progressively from one level of the mind to the next, until the four higher levels of the mind are built and accessible. With this process, an individual is able to access multiple levels of thinking and is able to express his insights in tangible forms. Seed thought meditation creates a thinking person, a healthy mind, and a grounded and balanced consciousness.

The mental health benefits of meditation are now being proven through scientific studies. The seed thought meditation process, when practiced with dedication, will slowly integrate a fragmented mind and clarify the thought process.

The meditation courses are monthly study courses that have been designed originally by Torkom Saraydarian and expanded and updated by Gita Saraydarian. They require regular reading and study, mental poise in thinking, recording of daily insights, and a monthly summary report to your mentor/instructor.

Intermediate Meditation Courses (continued...)

Intermediate Level - (4 Courses)

Course 1: M3-1  101 Stories from Agni Yoga – (25 Lessons)

Agni Yoga is the Teaching of Living Ethics. The Agni Yoga books were first written in Russian by Helena Roerich, then translated into English and many other languages. These books contain very advanced Teachings, often expressed in direct and short paragraphs. Much of the Teaching is given by subtle reference, analogy, vision, parables, and stories.

A total of 101 stories were compiled from the Agni Yoga books, and this meditation course was designed to use the stories as seed thoughts.

Each lesson is self-contained with additional readings taken from the three-volume series of books, Talks on Agni, by Torkom Saraydarian. Each lesson contains the specific stories and directions.

This is a fantastic course for anyone who wishes to hone his/her creative thinking and find multiple meanings about life in parables and stories. It is especially suited for creative thinkers, writers, and artists. Every lesson will help you to expand and express your intuitive and artistic abilities.

Texts (optional): Talks on Agni in three volumes by Torkom Saraydarian.

Course 2: M3-2  Bhagavad Gita - (18 Lessons)

A chapter-by-chapter study of the Bhagavad Gita. This book is a classic in esoteric literature. It depicts the struggle of the human soul from the moment it is awakened to the dismal conditions of life, followed by the total emotional collapse of the personality, and finally moving toward transformation and soul consciousness.

Each lesson has a specific message. As you study each lesson and meditate, you will slowly incorporate the wisdom of each lessons into your life.

Required text: Bhagavad Gita (translated) by Torkom Saraydarian.
Course 3: M3-3 Creating Prosperity & Success - (12 Lessons)

Each person has the potential for prosperity and success in physical, emotional, and mental periods of life.

Discover the virtues you need in every part of your life and learn how to expand them and have lasting prosperity and success. Study the laws of prosperity and abundance from the physical, emotional, mental, and higher perspectives.

This course helps you find your inner strength and inner faith to break through to a greater prosperity and abundance.

Required text: Spring of Prosperity by Torkom Saraydarian.

Course 4: M3-4 Change your Life with Joy & Healing - (18 Lessons)

Relate to others in your life through the joy and love that is in your heart. This course will help you activate your life with joy instead of through the subconscious memories of sadness and depression.

If you wish to cultivate deep joy in your life, we recommend this course.

This 18-month course is a much deeper and more intensive study of Joy and Healing than the six-week course requirement for the Introduction to the Ageless Wisdom. Students who complete this course will be able to fulfill the requirement for the Stepping Into The Teaching courses.

Required text: Joy & Healing by Torkom Saraydarian.

Year 5 - T500: Cosmogenesis: Cosmos & the Human Experience

This Study Program is the quintessential program for spiritual education, training, and development.

Designed by Gita Saraydarian, following the recommendations given by Torkom Saraydarian and inspired by the Teachings of the Tibetan Master, these courses provide inner training that is the essential foundation for being a mature spiritual disciple, a teacher of the Ageless Wisdom, and a leader of spiritual groups.

The training consists of five years of study and meditation. The philosophy of the course organization is to start with a firm understanding of the microcosm, which is the human constitution, and apply that knowledge to the deeper understanding of the life and environment in which we live.
Students learn the technical aspects of the Teaching from the constitution of the human to Cosmogenesis. They learn:

> How to think and philosophically understand the application of their thinking.
> How to observe using all their senses.
> How to discipline their physical vehicle.
> How to purify and calm their emotions.
> How to access deep thinking processes.
> How to become higher psychics through sharpening their senses.
> How to be healthy, joyful, and abundant.
> How to transform their lives through the application of the Teaching.

The dual track of theory and practice offers a balanced and practical approach to spiritual study.

This five-year course is a step-by-step process of fine tuning the life we live. The course broadens and deepens students.

Before embarking on this course, please make sure you are able to make a serious commitment to the process of reading, study, and working with your teacher. Additionally, be sure you are committed to changing yourself by facing yourself. These courses are designed specially for those who wish to become spiritual warriors in knowing and being.

Contents of each course:

Each course involves reading material and lecture material, either on DVD, CD, or MP3, for each month’s lesson. These lectures were given to a select audience and recorded live at TSG Center.

You will be able to hear the lecture, read the assigned pages, and participate in guided meditation.

You will be assigned a special mentor from TSG’s qualified and experienced mentors and report monthly upon the completion of each assignment.

NOTE: To begin any of the above courses, first set up a special counselling session with either Gita Saraydarian or with one of our trained teachers. The session will help you identify your goals and establish your work process during these lessons. After the completion of each lesson, you will once again have the opportunity to report to your spiritual counselor regarding your lesson. She or he will read your lesson and then be available to consult with you if you have any questions or concerns.
Course 4-a — The Science of Becoming Your True Self

This is a twelve-part study program presented by Gita Saraydarian. All lectures are recorded live at TSG Foundation Center and are based on the book *The Science of Becoming Oneself* by Torkom Saraydarian.

» Are you ready to become your True Self?
» Are you ready to become genuine and authentic?
» Are you ready to find your real, true voice?
» Are you tired of deceiving yourself?
» Are you tired of hiding yourself and want to break out of your prisons?

You can find your True Self if you are willing to do the work and accept the challenges that real, internal change involves. When you change your focus from the physical-emotional-logical mental world, you begin the path to become your True Self. Be ready for wonderful insights, awakenings, “aha” moments, and tears of happiness, joy, and yes, eventually bliss!

You can achieve a genuine life if you are willing to do the work. Whatever you put into this course is what you will get out it. There is no mystery, no miracle, and no quick fixes in the life of spiritual evolution. It takes honest work to remove years of old debris stuck to your bodies and to let the inner diamond shine.

Stop looking for the miracle book, page, teacher, or teaching. Stop thinking that one person, one telephone call will help you solve all your problems. The solution is not outside of you, but inside of you. Learn to look inside of yourself and find the jewel hiding deep in the layers of your life. Start to become sensitive to yourself and your inner being. Start to appreciate what your inner wisdom is telling you.

Each lecture involves a special topic and lesson for one month.

**The twelve topics are:**

2. Perfect Love
3. Harmlessness

> Course 4-b — Building The Lighted House

This *nine-part course* corresponds to the monthly zodiacal cycles. All lectures are presented by Gita Saraydarian and recorded live at TSG Foundation Center.

The “Lighted House” is a term used to define the subtle mechanism in the higher mind. It is called the “Chalice.” This mechanism is composed of vibrating and radiating energy currents of compassionate love, truth, and selfless service or sacrificial service. As this energetic mechanism is built and increased, our light shines out in greater intensity and greater benefit. And, as the power of the Chalice increases, we become the human soul; we are spiritually born.

This series of lectures explores the nine-part process of unfolding the petals of the Chalice and is organized to take advantage of the building energies and currents available during each full moon. The series begins with the Cancer full moon, which has the theme of building the Lighted House, and ends at the Pisces full moon, completing the cycle of building.
Each lecture was presented during the full moon celebration. It encompasses the keynote of that particular full moon, and focuses more specifically on the work needed in order to unfold a part of the Chalice.

Each lesson consists of a lecture, meditation, and a healing prayer. Each lecture focuses on one area of life that presents a specific challenge in the process of building our Chalice, how that aspect provides an opportunity for an initiation, and the particular crisis that we face at intervals in our journey.

**Requirements & materials:**

» **Lectures:** Nine-lecture set by Gita Saraydarian. Available on DVDs/CDs or MP3

» **Monthly meeting:** with your mentor via e-mail/telephone/online.

> **Course 4-c — Building Universal Awareness**  
> __Building The Group Chalice__

A twelve-part study course presented by Gita Saraydarian and recorded live at TSG Foundation Center.

The Ageless Wisdom Teachings give us a new world view and offer a process of discipline to become spiritually mature and inclusive persons. Spiritual people need to become aware of what is going on in the world, in the material and spiritual planes, and not limit their world view to a narrow, sectarian perspective.

When we develop a larger perspective on life and events, we begin to interact with everyone around us in a more tolerant, inclusive, and patient manner. We become a better family person, a better spouse or parent, a better group member and participant in group work, and a better team player.

When you are a spiritually mature individual, you become a sought-after gem in your family, at your workplace, in spiritual groups and organizations, and even in your service projects and volunteer works. We all want a better world to live in; we want better work relations and better human relations.
This twelve-part series offers insights, discoveries, and proven methods to help you build universal awareness. It covers twelve areas of life that need to be improved in order to become a dynamic and universal thinker.

The twelve-lecture topics:

1. Courage
2. Faith
3. Your True Self
4. The Path
5. The Spiritual Warrior
6. The Miracle of Continuity
7. Scientific Meditation
8. Basics of Meditation
9. Mapping Our Progress
10. The Call
11. Contact
12. Spiritual Nobility

The series answers questions such as:

» Why is courage needed in building my greater awareness?
» How do I measure success in my life?
» How do I clean up my “act” so that I am reliable?
» What kind of mental training do I need?
» How do I choose the best kind of meditation practice?
» How do I find my “calling”?
» When do I know I made the right “contact” with a higher vision and inspiration?
» What does self-confidence have to do with being a team player?
» How does the ego and vanity interfere with being a team player?
» What is the Group Chalice?

Each lecture contains a presentation followed by a guided meditation.

You may also benefit from the cyclic energies of the planet and zodiac and arrange to begin your first lesson at the new moon of your birth sign, or birthday, the start of the spiritual new year at Aries, or any significant date that you find most...
compelling. This will give you renewed courage and positive energies to begin each lesson. Proceed as before and arrange to report to your Mentor at or around the full moon.

- **Text:** No specific book is assigned; recommended readings are given in each lecture.

> **Course 4-d — The Labors of Hercules**

A fourteen-part course, corresponding to the monthly zodiacal cycles. Includes CD or MP3 lectures presented by Gita Saraydarian which have been recorded live at TSG Foundation Center.

Teachers of the Ancient Wisdom and Mystery Schools have studied and presented the story of the labors of Hercules in lectures and dramatic presentations from ancient times. In these labors are hidden the mystery of self-transformation and initiation. They are dramatic descriptions of the path of the aspirant passing through discipleship tests and proving his or her readiness for initiation. In symbolic story after story, the labors represent the challenges that we all face when we decide to make a life-altering decision.

In 1937, Alice A. Bailey, a great teacher of the Ageless Wisdom, gave a series of classes on the twelve labors in New York. In 1976, Torkom Saraydarian gave a twelve-part seminar in Los Angeles, presenting more depth and explanation to the twelve labors. Then in 2006-2007, Gita Saraydarian presented a series of lectures on the twelve labors in Cave Creek, Arizona.

This fourteen-part series represents Gita’s deep study of her predecessors’ work, adding her own insights and life experiences. She has a fresh look at Hercules and his exploits, uncovers the hidden females in his life, and shows how this ancient story can still have relevance in our life today.
Special Topics Study Courses (continued...)

The Labors of Hercules series is organized as follows:

1. Two introductory lectures laying the foundation.

2. The twelve lectures, unfolding according to the zodiacal calendar, one labor per zodiacal sign beginning with Aries.

3. Each lecture includes an explanation of the keynotes, reading of the story using the book *The Labors of Hercules*, plus a guided meditation.

Requirements & materials:

» **Lectures:** *Labor of Hercules* by Gita Saraydarian. The complete set available on CD or MP3.

» **Book:** *Labors of Hercules* by Alice A. Bailey.

» **Mentoring:** Monthly meeting with your mentor.

> Course 4-e — Total Prosperity & Abundance

**Two-part seminar** recorded in Cave Creek, Arizona with **Gita Saraydarian**. Course contains a seminar binder with CD sets and printed support materials.

Gita Saraydarian presented two-day seminars on total prosperity and abundance in London (UK), Lima (Peru), Cave Creek (Arizona), and Los Angeles (California), and Milan, (Italy). Students attending these seminars came from many walks of life, all having the desire to redefine the priorities in their life and develop a deeper understanding of the meaning of abundance.

Students of religion and spirituality the world over often have very wrong ideas about abundance and prosperity. Somehow, the image of poverty, lack, and suffering has become synonymous with being spiritual. Torkom, as well as great teachers and spiritual leaders, was a fully prosperous and abundant person. He taught about the laws of prosperity and emphasized great principles that help us become prosperous in every way.

The *Total Prosperity & Abundance Seminar* is a result of Gita’s intense research and study of the spiritual principles that operate in nature that help us achieve total...
prosperity and abundance. The presentations are based primarily on the Teachings by Torkom Saraydarian and Gita’s practical experiences in her personal and professional life. Gita has applied her lesson to her private and professional life and has developed TSG Foundation into an internationally recognized spiritual group.

During this intensive two-part seminar, you will learn how to change your thoughts, wishes, and plans so that prosperity can be yours. Gita presents the natural laws that govern prosperity and the ways to apply these laws in our daily life.

The CDs and support materials are fresh and dynamic and bring to your private study all the energy and enthusiasm of the live presentations. The presentations include lectures on prosperity, success, visualization and meditation practices to enhance your life, and a step-by-step implementation plan for your continued success and prosperity.

The Ancient Wisdom Teachings provide guidelines for total abundance and prosperity in the physical sense — such as money, health, property, family, and friends — as well as for the emotional, mental, and spiritual life. Open your inner doors now to a more fully abundant life.

Topics include:

» How to define your prosperity
» Prosperity Laws of Nature and how they work
» Visualization plan to receive prosperity and abundance
» Subconscious recordings and outdated thoughtforms about abundance
» Spiritual foundations for success
» Psychic Energy and the Fire of Space
» Your fundamental support system
» Laws of Success
» Thoughts and wishes: what is right and what is wrong
» Implementation plan for continuous prosperity

Students at any level may take meditation courses. It is recommended that students start on any level of a pre-meditation or meditation course beginning with their second year of the Esoteric Study Program. Each completed meditation lesson earns the student 1-credit unit; a twelve-part course thus earns 12 units.

» **Book Reports** (2+ units)
Students also may read and write a summary of books by Torkom Saraydarian. Each book summary needs to be 3-4 pages in length. Each summary earns 2 units of credit or more for larger books. Since some books are much longer in length than others, it is advised that a student discuss the choice of books with the advisor or teacher.

» **Student Lectures or Leading Class Discussions** (2 units)
Credits may also be earned by giving class lectures and leading group discussions such as full moon meetings. Each lecture/class discussion earns 2 units of credit.

» **Summary of Units**
A total of 150 units is needed to graduate. Extra classes, seminars, book reports, lectures, meditation courses, or special projects under the care of an advisor can earn the needed units. The following is a summary of the units that may be earned:

- **Five-year program of classes**, four courses per year (85 units).
- **Senior Thesis** (10 units).
- **Student lecture & discussion presentation** (5-10 units each).
- **Summary of lectures**, by Torkom Saraydarian or Gita Saraydarian. For each hour of lecture (3 units).
- **Meditation courses**, monthly lessons, per lesson completed (1 unit).
- **Research project**, units based on length and complexity of project (10-30 units).
- **Creating and writing**, a complete meditation course or study course for TSG Spiritual University. Units based on length and complexity of project (10-30 units)

» **Certificates**
Certificates and diplomas are awarded by mail or in person. Graduation ceremonies are held annually at TSG Annual Conferences.

Suggestions & Guidance

An important message to all students...

Please read the following carefully.

Any spiritual work that you do brings a new energetic component into your life. If you mix various spiritual disciplines together, the result is confusion and discouragement. We recommend that you think seriously before committing to taking courses at TSG Spiritual University. We recommend that you focus on one line of meditation and study until you have established deep roots, the foundation of your spiritual work. We respect the work of all teachers of the Ageless Wisdom. If you are currently studying with other institutions or teachers, please inform your teacher or mentor before you begin a course at TSG Spiritual University.

Spiritual work often brings to our attention the needed adjustments we, as individuals, must make to grow into spiritually mature individuals. Meditation and spiritual study will often start smoothly, then become challenging as hidden issues arise and need to be cleaned. There is always a “honeymoon” phase to spiritual work, quickly followed by “why am I doing this” phase, then followed by “if only everyone would change so I can easily become perfect” stage. Sometimes students can overcome these challenges and bloom naturally and beautifully. Sometimes students give up after a few tries and get discouraged after a few lessons and personality challenges. For these reasons, it is important to know before you start that consistent, rhythmic study and monthly reporting to your mentor is an essential part of your work.

Spiritual work involves the physical body, the emotions, the mind, as well as the family and environment. We cannot continue our life as usual if we wish to gain the most benefit from our spiritual work. You will gain the most benefit if you can continuously remember that change begins with you.

Our commitment is to provide you with the tools and the mentoring to help you make the necessary adjustments in your life. The effort must originate and continue with your own striving.

We also encourage all our students to learn from various sources about healthy living, exercise, right foods, right health and medical treatments, as well as learning to develop healthy relationships with others.

As you proceed on your path of development, you may have many questions regarding your lessons. Please understand that any opinions and directions for your

We do not offer psychological counseling or psychiatric care. Our mentors offer spiritual and philosophical counseling. You are not compelled to do anything that you do not wish to do. You are completely free to follow said advice or not follow it. We do not ask for obedience to any person, course, or book. It is you who will determine how you will conduct your life as you begin the path of spiritual discipline. You may discontinue your course of study at any time.

Please make sure you understand the information given here prior to registration. Contact us for any further explanation or clarification.

We look forward to helping you achieve your spiritual goals.
