The Future is Ours...The Second Ray of Love-Compassion

By Gita Saraydarian

There are seven Cosmic Rays about which we have no information, other than that which has been given about the Cosmic Second Ray. It is through the Cosmic Second Ray that our solar system was created. The Seven Rays about which we have received some instructions, are actually sub-rays of the Cosmic Second Ray." (*The Seven Rays*, unpublished manuscript by Torkom Saraydarian.)

"The Cosmic Second Ray is the totality of our Seven Rays. The Love-Wisdom Ray, or Second Ray, can only be assimilated by living a life of love-wisdom, thinking in the light of love-wisdom, speaking in the light of love wisdom, and charging our thoughts, words, and actions with love." (*Ibid.*)

The greatest leaders in all fields and the great Avatars of our time have emphasized the fundamental importance of love and the power of the heart.

Our Future will be built, in its true spiritual sense, as we adhere to the principles which embody Love and Compassion.

When we gear into the rhythm of love and wisdom, we are charged by the rhythm of the Cosmic Heart regardless of the field in which we operate and regardless of the Ray which influences us.

The rhythm of the Cosmic Heart is the rhythm of our soul, that human essence in us which is connected to the essence in everything and everyone.

How can we find our soul and its rhythm? How can we make the leap from being primarily personality obsessed to that of soul consciousness?

The answer lies in education and the practice of heart virtues.

The field of Education operates in the energy field of the Second Ray of Love, the sub-ray of the Cosmic Second Ray. We are slowly seeing how in the field of education the principles of cooperation, virtues, core values, tolerance, love of other peoples and so on are already being taught. Education in the fundamentals of the Ageless Wisdom, across all fields of human endeavor, will eventually form the basis for all education. We will eventually define an educated person as one who is well versed in the fundamental principles of the Teaching. We will clearly realize that when men and women are imbued with the Higher Principles of life, they are in a better position to make decisions in their personal and professional lives that will generate a better life for all people with which they

come into contact.

Torkom Saraydarian talks about education in many of his books. Here are some examples:

"Our educational system must be humanized. Great emphasis must be put upon teaching right human relations, goodwill, cooperation, and service." (*Year 2000 and After*, p. 129.) And, "...the educators of the world will create methods to call into action all latent virtues and potentials in man and orient him into creative actions.

"Education has been an effort to increase intelligence, knowledge, and technology in all fields. The education of the future will work with the will aspect of man, with his beingness, rather than make him accumulate knowledge and create methods of destruction.

"Education will prove how beingness is superior to knowledge and possessions." (*Ibid.*, pp. 148-149.)

In the Ageless Wisdom Teachings we read about cyclic shocks and shifts that occur in space. These are clearly discussed in three books that we have been recommending as important reading for the next coming years. These are: *The Year 2000 and After*, *Cosmic Shocks*, and *Olympus World Report...the Year 3000*.

Future is Ours...Cont. from page 1

These three books contain the needed information to make that gigantic shift in consciousness to be in the Future. Why?

“Shocks create heavy resistance from one who has various kinds of fear in his nature. These fears are formed in him by outer influences, or developed from within.

“Fear developed within a person is more damaging than fear imposed upon him by outer circumstances and events. It is interesting to note that any action taken against Beauty, Goodness, Righteousness, Joy, and Freedom creates an inner fear. Such fear is an instinctive feeling that one is doing something wrong. A person feels an inner rejection or non-approval which troubles him because he loses his sense of integrity, and a cleavage is created in his psyche. He feels that he is going to lose something precious.

“Such a fear is the reaction to one of his deeds which was rejected by his conscience. Once fear dominates the mind, a person feels abandoned. It is this psychological loneliness which makes a person try to manipulate and exploit the world in order to feel a part of it.

“When shocks are released and crises hit our shores, fear creates heavy reactions to the energies. Friction between a person and the shock results. Such friction causes mental disturbances and complications in daily relationships.

“One who is in a state of fear receives the shock and changes it into poison. Those who are poisoned by fear become centers of great disturbances on Earth.

“Shocks affect the seven fields of human endeavor constructively or destructively, according to the elements found in each field which either react or respond to the shocks.”

“In the educational field, a new labor to enlighten the youth of the world will begin if those who are responsive to the shock are in the majority. If the majority in this field react, then the will to use education as a tool to manipulate, exploit, and

compete will appear everywhere.” (*Cosmic Shocks*, pp. 39-40.)

Free Will and Free Choice

We do have the freedom to make any choice we wish. However, when we consider the welfare of others who depend on us, we are more inclined to make the choices that result in greater benefit. The Purpose of each human being in this world is to become one with the Divine. A spiritually mature person soon realizes that every choice he or she makes must be done within the guidelines of the Great Ones. We read in the Teachings that Great Ones watch and guide us daily so that this greater Purpose is realized. They inspire us and give us greater visions to help us in our choices and decisions. We still have to take that important step and walk the path.

A beautiful passage tells the story:

*“We inspired
in all fields
of all Ashrams
the flame of education.
We confronted
great dangers
when, through education,
people tried
to use their knowledge
against each other.
There was grave danger
when We released the
knowledge
from the Temples of Mysteries
to the masses through
education.*

*“Today,
education is the expansion of
love and
the expansion of consciousness
to embrace higher levels of
being.
It is education
for sacrifice and service.”*

(*Olympus World Report...The Year 3000*, pp. 84-85.)

Goals of Education

“The goal of education is to eliminate all

those hindrances which bring health problems, emotional problems and stresses, mental problems, and social and global problems. Until now, our religious and academic education has not given us a safe world. It has not given us a future we can be proud of. It has not given us clear skies, clean water, or food uncontaminated by insecticides, poison, and radiation. Education has not reduced or stopped the increase of crime all over the world. Education has not been able to uproot the causes of war, and so on.

“If education is guilty of all these things, one wonders why, then, we spend billions of dollars all over the world just to employ teachers, build buildings, and try to teach a new generation of mankind. All men and women of higher vision are waiting to see a change in education. Change in education will not be accomplished by a change in machines or the increase of the number of computers, televisions, radios, tape recorders, video and sound equipment, etc. It will be a change in the goals of education.”

“I envision the following goals of education:

1. To eliminate war from the surface of the earth
2. To make everyone in the world free from want
3. To eliminate every kind of crime, not by laws but through education
4. To transform the children of the world by cultivating in their hearts the vision of one world, one humanity, with great respect and appreciation for the culture of every nation
5. To wipe out the sources of disease
6. To build all the necessary steps to prove the immortality of man
7. To contact the Higher Worlds

“If people have such objectives and they mobilize the education of the world toward these objectives, the world will turn into a place to live, to enjoy, and to develop all

Music and Your Aura

Here is a beautiful excerpt from the upcoming book *The Aura*, by Torkom Saraydarian, on the subject of music:

“The aura of a human being may be cleaned of crystallized formations through music. I have written certain music which, if listened to carefully for a period of five months, will dissolve many kinds of glamors, illusions, and maya. The process of cleansing is as follows.

“First, the music will create a repulsive reaction if the layers of crystallization are thick. Then dislocation occurs, and the crystallizations move to the surface of the aura. At this point they lose their sharp borders and become cloud-like masses. It is at this point that the music begins to create a slight sensation of joy. After feeling such joy, the process of dissolving the crystallizations increases and continues.

“During the period of breaking the crystallizations, a person passes through crises. Eventually, emotional and mental stabilization takes place with an increasing amount of health and energy.

“When the crystallizations are finally melted, intense love for the music appears in the heart of the person. This takes a few months, but eventually the aura shines with its normal colors.

“The way to listen to this music is to relax and let the sound of the music penetrate your entire aura, until you almost memorize the music and mentally follow it....This must be listened to for twenty minutes every evening before sleeping, and on Sundays when you have time for retreat or seclusion. It is more effective during the night or during the day in Nature.”

“As a magnet rearranges iron filings in the pattern of the magnetic rays, so music arranges the atoms of the aura. As these atoms arrange and rearrange, they free themselves from the power of crystallization, and eventually all the auric waves flow in harmonious rhythm with each other. Physical, emotional, and mental health depend on how synchronously and harmoniously the atoms and cells circulate in the aura.” (*The Aura*, pp. 64-66.)□

the latent possibilities of man. (*Educating the Whole Person*, Vol. I, pp. vii-viii.)

Is this an attainable vision? Absolutely yes! What do we need to do to actualize this vision? We need to start our real education. It starts with you and me. It starts when we begin living by the dictates of Love-Wisdom, attracting the energies and behaviors that are beneficial for our growth, and repulsing the behaviors and addictions that are detrimental to our growth. It starts when we cultivate our minds and hearts together. It starts when we practice spiritual principles in everything that we do on a daily basis. It starts when we commit ourselves to grow and expand our consciousness through study, meditation, and service. It starts when we keep our commitments and make the right choices for the greater good. It starts when we move away from self-absorption, even in our spiritual practices, and go toward looking at the larger picture and seeing the whole.

Leadership to Refute Negativism in Education

The Leaders in the field of education have a great responsibility to see that the Future is truly possible and to show how we can inaugurate a new era.

“The third forecast for the coming Age is that in the years 2030 to 2040 education will be totally dedicated to expanding the consciousness of humanity so that it becomes sensitive to all forms of life as a whole. Communication will be developed between man and animals, between man and trees, oceans, rivers, mountains...and stars. Mankind will become sensitive to all life.”

“It is important to deny the entrance of such ideas [of destruction] into our consciousness because we must foster the spirit of optimism. Through optimism, the creative forces of Nature can work to influence people. This does not mean that we should blind ourselves to dangers but see dangers in their proper perspective. They are like small waves on a vast and beautiful ocean.” *Olympus*...p. 13.)

How to be a Human Soul

“In general, there are three kinds of people. The first kind are those who are dedicated to the development of their mind. The second kind are those who are dedicated to developing their heart. The third kind are those who try to develop their heart and mind simultaneously. This third kind are not the majority, but they hold the key to equilibrium in their hands.” (*The Flame of the Heart*, p. 83.)

“When the heart and mind have a parallel development, the human soul enters the path of perfection and blooms day after day with light and beauty. The secret of such a blooming is that when the heart and mind develop together, they evoke the higher potentials of the mind and of the heart and the spiritual will which exists in the Core of every human being. This is how *direction* is found.

Inside: The Future is ours...The Second Ray of Love-Compassion

The Loving One

“The love of God can be understood by the possibility and opportunity that He gave human beings to be perfect as “He is perfect.” Do you understand how deep this is? If you love somebody, you want to make him greater and bigger and more majestic than you are. Humanity is given the opportunity to be like Him. That is love. He is the Loving One.

It is not emotional loving, it is not sexual loving, it is

not conditional love; it is something which is given to everybody to develop and reach His perfection. Why is that? It is because love is the greatest magnet, and all of us are a little, little iron pieces which are attracted to that Cosmic Magnet. That magnetism is His love which is pulling us slowly, slowly toward Him to be like Him. “Be perfect as your Father in heaven is perfect,” said Christ. It is so beautiful.”
