Triangles of Fire - Corresponding Triangles The Unpublished Archives

By Torkom Saraydarian

The following article, previously unpublished, is a transcription of a lecture given by Torkom on September 29, 1991.

The Tibetan Master once said, "All disciples in the world, and those people who love humanity and this planet, must start building triangles of fire." He explained in His many books what these triangles are.

The first of these triangles are called the Triangles of Light. The second are called Triangles of Goodwill or right human relations. The third type are related to Will or politics. We are told that disciples all over the world are going to build these three types of triangles to change human consciousness.

The story behind the triangles is this. The Master Tibetan says that a great percentage of the etheric body of this planet is built of squares. That is why humanity is still a "square" humanity. This must be changed into triangles. The square formation was for the first solar system. The first solar system was built on square patterns.

The etheric body of this solar system is going to be built of triangles. The next solar system is going to be built of spheres to facilitate the circulation of more energy. You have consciousness, you have vitality, and you have energy because the circulation of energies is in good order within your body, within your consciousness, within your group, and within humanity. There is

health, happiness, prosperity, and progress. All depend on the circulation of energy.

To change square etheric formations into triangles, the Tibetan Master suggests we build triangles. The first triangles are built by the substance of light. Three people unite together and they transmit light to each other. What is light? Light is knowledge. Light is intuition. Light is revelation. Light is understanding. Light is certainty, clarity. Light is right relations, direct relations. All that is built by light people must direct to each other. By directing light to each other with their thought energy, they change the pattern of squares into triangles so that more energy is absorbed from Cosmic space and transmitted to human beings or to other kingdoms on this planet.

The second triangle is goodwill. Three people or three hundred groups of three people or a million groups of three people will unite and start working for goodwill and right human relations. I met a few people in Switzerland, in Germany, in Europe, and also in America who belonged to this second triangle. What do they do? They distribute money for right human relations and goodwill, and they create right human relations between groups and families who are in conflict. Three people go to a house where there are problems. One talks one way, another a

Continued on page 2

Triangles of Fire... Cont. from page 1

different way, another a different way. From three viewpoints they approach the problems and solve the problems.

They not only do this physically but also mentally. Let us say that some person is involved in wrong human relations and he has no goodwill at all. They hold him mentally in the midst of the triangle. For example, three people in different locations in their imagination and visualization send goodwill, the energy of right human relations to each other, and this expands their hearts, their minds, making them feel that it is better to work for right human relations than to disturb right human relations. It is better to have goodwill than ill will. Eventually, mentally and spiritually, they affect each other's thinking and condition their thinking, and they start thinking in terms of right human relations. This effect is based on the energy of thought. Everything, according to the Ageless Wisdom, is built by thought energy. God was thinking and He designed all these things, and all these things were built according to the thinking of that Almighty Power.

The third type of triangle is called a Triangle of Will. What is a Triangle of Will? We are expecting that such a triangle is going to be built by three mighty Presidents or three mighty politicians or three great intellectuals, lawyers, judges — so that they communicate with each other and create a new world diplomacy, so that we have a better world to live in, so that we have right human relations, so that we have goodwill, so that we have light and beauty! This is also transformation in subjective levels — from squares to triangles.

We are told that the Science of the Triangles was given by Christ in His Ashrams. One of the great Initiates says that His Teaching about the Science of Triangles is collected maybe in ten volumes, yet They do not know how to pour that information into the minds of the people because the people can take this information and science according to the expansion of their consciousness and the purity of their heart. But slowly, slowly this science is penetrating into the minds of the people, and here and there you can see things such as the Science of Pyramids, the Science of Triangles, and triangles in astronomy, astrology, even in science.

This third type of triangle is for new world policy. What will be the new world policy? The new world policy will be organized by clear thinking from the first triangle, light; second by goodwill and right human rela-

tions; third by beauty, which is Divine Communication. The first triangle deals with light. The second triangle deals with love — expressing, expanding, distributing love everywhere, toward everything — so that in your family, in your community, in your church, in your nation you have light and you have deep love and compassion, so that everybody in the world works for light and for love.

The third triangles are not easy because they are based on communication with God. The third triangles are going to be formed by those human beings who have high consciousness and have a continuity of consciousness in them. They will be able to pick up the Will of God, the Purpose of God, the Plan of God and bring these to humanity, to their nation, or to the whole planet.

These third triangles are formed by advanced Initiates. Whether they are in high or low positions does not matter because positions are measured by spiritual positions. One can be a carpenter, but in his heart, in his soul he can be in contact with God, bringing the Will of God into his consciousness, into his heart and then speaking about the Will of God for this planet, for this humanity. Does God really want us to kill each other? Does God really want us to pollute this planet? Does God really want crime to increase? Does God really want all these divorces? Does God really want all these crimes that are everywhere? He does not. Then why is it going on? It is because we do not have that lightning rod which will bring the Will of God, explain it to humanity, and impress them with the Plan, with the Will, with the Purpose of God. This third kind of triangle is a very advanced triangle.

Correspondences of Triangles

These triangles have correspondences in the human body. In the human body these three triangles exist. The first triangle is called the energy or pranic or vitality triangle. This is known especially in the study of electronics in medicine. Eventually medicine will reveal it. In the human body there is a triangle that brings energy into the human system. Where is that triangle? One part of that triangle is the spleen. Another is a little higher. Just below the diaphragm is a point that takes in energy - the spleen. These two are very important points in your body. A third is between your shoulder blades. If these three points are really working, you will have good energy physically, but if one of them is not working, your en-

Continued on page 3

Triangles of Fire.... Cont. from page 2

ergy systems are out of balance. These three points are called the light triangle in your body because, actually, energy is nothing else but light. (See *New Dimensions in Healing* by Torkom Saraydarian)

Light is energy. Light in your mind is energy. Light in your consciousness is energy. Light in the atom is energy. When the energy in the atom is released, you can find nothing else but light in the atom. The light is the energy. This triangle in your aura absorbs energy from space, from the sun especially, and from the stars. The energy turns three times around itself and through the spleen it gets into your blood and you feel the vitality. This pranic triangle within you corresponds to greater triangles of light.

Actually, everything in the Universe corresponds with everything else. I had a friend who was meditating for three days. When he opened his eyes he told me something so interesting, but he could not understand its meaning. He said, "Everything in the Universe is nothing else but a mirror." I asked, "What do you mean?" "I do not know," he said. Now, I could understand the meaning of what he saw. Take holograms, for example. Everything is reflected in everything. In a cell of your body the Universe is in existence. In your eyes the universal galaxies exist, like many microfilms. Everything is a reflection of everything else in the Universe. Our triangle within our body is a reflection of the first triangle.

There is another triangle that is very important. If you read, for example, many myths, legends, and religions of the world, you will see that there is a Teaching of the Trinity: God is Light, God is Love, and God is Power. It is this God that created the solar system. The previous solar system was built by light, love, and power, but light was dominating. Our current solar system was built by light, love, and power, with love predominating, and a third solar system far in the future will have will predominating.

The second triangle within you is built by the pineal gland, the pituitary body, and the throat center. This is called the manasic triangle. Manas is mental fire. Between your first triangle and second triangle there is a gap. That gap must be bridged if you want to initiate yourself into deeper consciousness and become a useful human being.

This triangle starts building as you expand your

consciousness in your colleges and universities, doing meditation, working hard in scientific fields and other fields. Eventually this triangle, which is built by the throat center, pineal gland, and pituitary body, forms a triangle of relationships. As this triangle is built within you, you become more inclined to bring right human relations and goodwill to humanity. Before this triangle is built, no matter who tells you what to do, you are not inclined toward right human relations or goodwill. You are always an egotist, vain, and separative, and you try to use everything for your own self-interest. When this triangle is built within you, you naturally love people, you naturally want to help them, you naturally bring people together, and you naturally build triangles so that you help people.

You remember what Christ said, "If three people are united in the world, they can move mountains." Why did He not say five? He said three people. Why three people? It is three people because three people are representatives of the three great forces in the Universe. One force is called by religious people Father, the second force is called Son, and the third force is called Holy Spirit — Power, Love, and Light. If three people are really united with this light energy, they can move mountains; they can change everything in the world. But to find that unity is very difficult. In Nature you can see this principle very clearly. Even your family is built upon it: father, mother, and child. Again it is Trinity. All is built on Trinity.

The third triangle, which corresponds to the triangle of will, is again in your head. We have vitality, which is the first triangle, mind is the second triangle, and spirit is the third triangle. The spirit triangle is formed by the throat center, the heart center, and the seven head centers. The fact is that as in the human body so also in the body of humanity, so in the body of the planet, these three triangles must be united and fused with each other so that the completion of the Divine Plan is achieved.

If you unite these triangles within you, you will be a Third Degree Initiate, and you will pass through the Initiation of Transfiguration. The Ageless Wisdom says that until the year 2000, humanity must purify itself to such a degree that everywhere there is light, which means there is truth, there is reality, there is fact. People are not cheating each other; people are not exploiting each other. There is light. Imagine if there is light everywhere, what a change will happen in this planet — physical

Continued on page 4

Triangles of Fire.... Cont. from page 3

light, emotional light, mental light, spiritual light. For example, imagine a big factory in which there is light. The boss and all employees are in the light, in right human relations. They really have goodwill and they are really activated by the spirit of Common Good, the source of which is the Will of God. Common Good is the source of God's Will.

The Great Invocation

All these things can be done, says the Tibetan Master, by saying the Great Invocation with deep concentration every day three to seven times as a prayer. Look how beautifully it is arranged. The first verse of the Great Invocation is for the first triangle. *From the point of Light within the Mind of God, Let light stream forth into the minds of men. Let Light descend on Earth.* That is the first triangle. What is the first triangle saying? Let the Light in the Mind of God come and descend into the minds of people so that they work and live and relate to each other within the Mind of God through their own mind illuminated by the Light of God.

When you are saying the Great Invocation, you are going really to tell God, "From the point of Light within the Mind of God, let that light come and descend on me and then descend everywhere and in every human being." What will happen if that Divine Light comes and descends into the minds of every human being? Every human being will be a little lamp that radiates the Light of God in their families, in their business, in their government, in their church, in their group. In all their relationships they are not using darkness, but they are using light.

You know when your child lies what happens. You say, "John, come here," and he does not look at you because there is darkness in him. He did something wrong. Doing something wrong means you are in darkness. By doing something in darkness, you are in darkness. Why do thieves use the darkness to do something wrong? Everything you want to do that is not legal, is not right, you hide. Hiding is a darkness. Why are you hiding? It is because you are afraid of the light. If you are afraid of the light, definitely you are doing something wrong. If you are doing something wrong, you are hurting yourself. Not only are you hurting yourself, you are hurting every human being on this planet.

How beautiful it is to be in the light, to be of the light, to radiate light. That is why the first verse of the

Great Invocation was given. *From the point of Light within the Mind of God, Let light stream forth into the minds of men. Let Light descend on Earth.* What will happen to your politics if light is everywhere? You will not need to pay all the taxes you are paying. You will not need to send your children to be killed and to kill people because the light is there. Light is also righteousness, clear light.

You must say the first verse with really good intention because Christ said, "If you want to pray, close your doors and windows and address the Father Who is in heaven." You are not going to fluctuate. You are going to say, "Let Light descend on Earth!" What is the earth? Body is earth. Humanity, the globe is earth. Let light come so that that light reveals everything in man, in humanity, in the globe.

Sometimes it is awful to be revealed by the light, but before you are revealed there is no chance that you can progress because darkness never lets you progress. Darkness always stays only where it is standing, but light always progresses. You are going to face that light and reveal yourself. Every bug hidden within you must come to the surface eventually. You can see this happening in the governments. Suddenly you see a big man exposed. What happened? The light came and hit him and then there is no secret. It is out. What will happen if that light hits humanity? All trash from the sewerage will come out, but it is good. It will be cleaned. Then you have a chance to progress.

When you are saying the Great Invocation, be careful. You are saying, "God, whenever I lied, I cheated people, I did stupid things, crimes, let them come to the surface." Can you stand that? That is the effect of the first triangle, but when the first triangle is conquered you have energy. That is the secret. If you are righteous, you have energy. If you go to the court and you know that you are guilty, believe me if they check your energy it is zero because you are licked. But no matter what, even if you know they are going to kill you, if you have righteousness, if you are right, you have no fear. You have energy. You fight for it because you are righteous. Light is the energy of your physical, emotional, mental, and spiritual systems. Stand in light.

Christ said, "In the light there is no darkness." Darkness is a symbolic word. Darkness means disease, crimes, deceit, cheating people, exploiting people, manipulating, creating wars and different harmful acts. It is

Continued on page 5

Triangles of Fire.... Cont. from page 4

all darkness. Why is it that a man is stealing two thousand dollars when he has another fifty million dollars in his pocket. Still he is stealing. Why is that? That is not light. That is darkness. When we say the Great Invocation, *Let Light descend on Earth*, good and bad, all will be revealed and light will conquer.

The second verse goes to the second type of triangle. The second triangle, which corresponds to your mental triangle, starts from the throat center and involves the pineal gland and pituitary body. It creates a triangle of light there, a magnetic point that absorbs great revelations and impressions from the Universe because that triangle is built. Your satellite dish is built. That is the dish that, for example, gets two hundred stations. The first one gets fifty stations. The second gets two hundred stations. There is another satellite dish that is going to receive millions of stations.

The second triangle is energized by the second verse. The interesting thing is that by saying the Great Invocation with all your concentration, you are energizing three kinds of triangles and energizing the triangles within yourself. The second triangle says, *From the point of Love within the Heart of God, Let love stream forth into the hearts of men. May Christ return to Earth.* The second triangle is the second person of the Trinity, Christ, the second power, love, and compassion. By saying the second verse you are energizing all those people who are working with light and love to create right human relations and goodwill. If you do not have goodwill and right human relations all over the world, you do not have love and your triangle is not built yet. That is why the second triangle is called the Solar Triangle or the Triangle of the Son, which is compassion, which is love, which is total good relations and harmlessness and beauty. Can you imagine what would happen to a family devastated with hatred if suddenly love comes and descends in their hearts? In many, many governmental offices people are fighting against each other, are jealous of each other, are slandering each other. They do not know their jobs; they do not do their jobs. What will happen if suddenly love comes?

Love does something very important. Love makes you use your sense of responsibility. If you do not have the sense of responsibility for your wife, your husband, your children, your friends, your co-workers, your employees, your boss, you do not have love and you are cheating yourself. If you do not have love, it means you

are not growing toward your Archetype. You are not growing. You built the first triangle but you are not building the second triangle.

Human development goes through three triangles, and these three triangles must fuse with each other so that you reach completion. Completion was demonstrated when Christ was transfigured on the mountain with the three disciples watching Him. What are the three correspondences of the three disciples? When your soul reaches transfiguration, your physical body, your emotional body, and your mental body will prostrate themselves and offer obedience to your soul. All three of these triangles of Fire will be used by the Christ within.

Let us come to the third triangle. The third triangle uses the next two verses. The third verse says: *From the Center where the Will of God is known, Let purpose guide the little wills of men — The Purpose which the Masters know and serve.* The fourth verse says: *From the center which we call the race of men, Let the Plan of Love and Light work out and may it seal the door where evil dwells.* God has a Will and we want that Will to descend and be within us so that we live according to what that Will is. Christ knows the purpose. Christ knows the power of will. He brought all His Teaching to show us what the will is. This is what is going to create right relationships between nations. Nations will be related to each other by the Will of God, nothing else — not self-interest but by the Will of God. Every time any nation works with self-interest, it prepares its own destruction. The Will of God must be behind everything we do.

The last verse, *Let Light and Love and Power restore the Plan on Earth*, means that all these triangles must fuse with each other and bring about the magnificent level of life which humanity should live in. Every time you are going to do the Great Invocation, please know that it is a supreme prayer. You must do it with all your might, with all your soul and dedication.

Forming Triangles

How do you form a triangle? Those who want to build the first triangle are going to find two other people. Let us say one person in China, one in Russia, and one in America decide upon a time simultaneously to say the Great Invocation. They are going to visualize sending the three energies of Light, Love, and Power around the triangle. This energy circulation will change the energy circulation of the squares. As you change the squares with-

Continued on page 6

Triangles of Fire... Cont. from page 5

in you into triangles, you come to your senses and become more of a human being.

The same method is used for the second type of triangle. For the second triangle you are going to find three people and these three people are going to create other threes, other threes, and all these triangle formations are going to spread goodwill, right human relations, publish in magazines, speak about this, speak on television and radio. What will they talk about? They will talk about right human relations, how to create good relations between parents and children, between wife and husband, between neighbors. There is so much to be done. Neighbors are screaming until morning, dancing, crying. The others are going to sleep and work. There is nobody who comes and says, "Let us take it easy." Immediately when the police are gone they start again, because nothing can be imposed on humanity except you impose right human relations upon yourself.

The third type of triangle is the political triangle. Politics does not mean to interfere in what your government is doing. That is their business. Let them do it. They know what they are doing. Political triangles (because they are formed by human beings identified together) will create one or millions of triangles who will bring in and sense the Divine Will and bring that Divine Will into their family, nation, and humanity.

If you have worked with the triangles within you and the triangles within humanity, then there are other triangles to be aware of. I wrote about them in *Triangles of Fire*. In that book I mention the triangles in Cosmos. For example, the Great Teacher says there is a triangle of energy related to our system, and that is the Light triangle in the Cosmos of Sirius, the Pleiades, and the Great Bear. That is only the Light triangle. They do not want us to talk about the next triangles because they are so very powerful.

Q&A

Question: Can you say the Great Invocation in the car?

Answer: You can say anything in the car if you are careful and do not have an accident. But, more importantly, you cannot say the Great Invocation or the Lord's Prayer mechanically. You are going to concentrate. For example, I was in Indiana where three hundred people were listening to my lecture. We said the Great Invocation. Then I said, "Whoever did not think of something

else while he was saying the Great Invocation, raise your hand." Only two people raised their hands. People say it like this, "*From the point of Light*, I fight with my wife, *Let Light stream forth*, everything is in darkness." It does not work. Have concentration. That is why Christ gave us the secret. He said, "Close everything." This means your computer will be totally turned inward. What happens then? Look how interesting it is. The God within you will answer you. But you cannot come into contact with that God because your doors and windows are open, and you listen to motorcycles and bombs and everything. You are always scattered. Learn to concentrate when you are praying, no matter what you pray. If you are praying to God, all your prayers are good. Whether you are this religion, that religion, it does not matter. There is only one God. If you are praying to that God, God is within you, and He will listen to you and you will listen to Him. That is the secret. You can say the Great Invocation anywhere you want, but can you totally concentrate? What about if you are saying the Great Invocation and you accidentally kill three, four people? I am not saying, "Do not say it." If your wife is driving, "yes."

Question: With triangles in foreign countries, where there is so much difference in time, what does one do?

Answer: There is no difference. You can do it. You are nine o'clock here, five o'clock there. So what. It is the same time.

Question: If it is not coordinated completely, do you lose a lot of the effect?

Answer: It is better to say the Great Invocation than to make it impossible with the difference of time. It is good to say whenever possible, but it is the best if you coordinate the three points at the same time because of the energy impact. For example, your carburetor and your thermostat work in the rhythm of time. When you are watering your garden, the meter is timing you. Timing must be here also. Your heart has timing. Your kidneys have timing. There is regularity in all of Nature, so if you can follow a timing, it is better. Every family must start the Great Invocation. The book called *Triangles of Fire* is there to help you. It explains everything. Start with your husband, wife, and child. Start with uncle, aunt, and grandfather. Let us start something so that we help humanity to come out from darkness.

Continued on page 7

Triangles of Fire.... Cont. from page 6

Question: Can children say the Great Invocation?

Answer: Why not? Children are better able to go to their Father than elder ones. Christ said something very, very significant. He said, "The Angels of your babies see the face of your Father everyday." This is in the New Testament. We raise our children with cursing, killing, doping, giving alcohol, leaving them home with bad television. After they watch all that television, they become contaminated.

A few days ago I went to see a movie. My goodness, it was full of children. The movie was drastic, destructive to the children. Why do you send your children there? It is crime. It is sex. You should see the little children, eight, nine, ten who are looking at the sexual performances. We left the show and came out with sadness and grief and depression that our children are contaminated with such movies. Where are you? Start working to clean yourself.

Question: What do you visualize with the fourth stanza?

Answer: That is the third triangle and the third triangle's duty is to eliminate evil and crime from the planet. That is it. Why do the governments exist? The duty of the governments and politicians is to eliminate all crime, to eliminate all evil everywhere. That is what we are praying for, "God do something." If they are not doing it, you do something. God will say, "What about you? You do something." I was watching something on television the other day that was very beautiful. In one of the little villages of a state they saw that criminals were coming and killing people, kidnapping little children, stealing things. The people came together and said, "Let us do something." That little city is guarded by the population every night. They have been six months without crime because they are all awake. Let any criminal enter there and they will face them. That is how you can be the owner of your rights. You are going to keep your rights and work for your rights. That is what the triangles are.

Question: When we invoke the Light and all the trash, darkness starts to come out, does saying the Great Invocation continue to clean it?

Answer: Of course. When you have dirty blankets, smelly blankets, what do you do? You hang them in the sun so that the light cleans them. You are going to be a blanket opening to the light and letting the light clean you. When you become sick, what do you want? You want to be healed. You do not say, "I do not want the

doctor to know that I am sick." Okay, if the doctor does not know that you are sick, you may die. Let someone know you are sick. That is the way. You are going to pay your karma and finish.

We must understand that the Great Invocation builds links:

1. It links the fiery triangles in man and brings about a fusion that integrates the person and makes him a whole. It makes him powerful, full of inspiration and radiation. Every integrated and aligned instrument turns into a transmitter of energy.
2. The Great Invocation links the man to three planetary centers called:
 - Humanity
 - Hierarchy
 - Shamballa
3. The Great Invocation links the fiery triangles of the person to
 - The Central Spiritual Sun
 - The Heart of the Sun
 - The Sun
4. The Great Invocation links the man with the "Point of Light," with the "Point of Love," and with the "Point of the Will of God."
5. The Great Invocation also makes people understand that there is *evil* in the world that must be stopped from influencing humanity and human destiny.

All these things can be gradually accomplished if every one who says the Great Invocation realizes that he or she is linking with Cosmic Sources and trying to bring Light, Love, and Power — *to restore the Plan on Earth.*
