## Higher Levels of Prosperity Consciousness: Part Two

*"It is a wrong idea to think that spirituality is not connected with prosperity...."*

(*Dynamics of Success* by Torkom Saraydarian, pp. 26.)

Dear Friends:

We are pleased to print the second half of the prosperity consciousness article by Torkom Saraydarian. In this part of the article he discusses the necessary mindset to understand the reappearance of Christ, facing our fears, how to spend money, how to give to others, affirmations, prayers, and much more.

We can all benefit by re-thinking about our level of prosperity consciousness. What gifts do we already enjoy? What gifts do we need so that we can do more than we do? What is our purpose and responsibilities? How best can we serve so that we are not deluding ourselves with outworn spiritual mumbo-jumbo?

In 2005, we have reprinted in Outreach some wonderful articles about prosperity, abundance, and success. In my research on these topics, I found much that could help us achieve success in every part of our life. I hope you have enjoyed these articles and I hope that you are able to attend at least one of our prosperity and abundance seminars and increase your prosperity potential in every way. See the calendar section for information about upcoming seminars in Arizona and in California.

TSG Purpose:

Our purpose is to perpetuate and safeguard all of the creative works of Torkom Saraydarian. To that end, our goals are to Publish, Distribute, Teach, and Preserve all his creative works. We are happy to provide you with tools to live healthy, happy, successful, and joyful lives.

As we approach our 18th Anniversary, I want to thank each of you for your support, your loving prayers and wishes, and your continued patronage. It seems only yesterday that we began our work in a small bedroom on top of a garage. Time has gone quickly and there is still so much left to do. We look forward to continuing our service and to bringing you more of Torkom's genius.

In this, the anniversary of Torkom's birth, we join with groups all over the world to celebrate his birthday and celebrate his legacy; we salute his accomplishments and his service and sacrifice to humanity.

All of us at TSG wish you a very Joyous Christmas, Happy Holidays, and a most successful and abundant New Year.

With love and appreciation,  
Gita Saraydarian

## Higher Levels of Prosperity Consciousness: Part Two

Q & A with Torkom Saraydarian

*Question: Can we possibly allow ourselves nice homes, nice cars, and the best when so much money needs to be poured into the Hierarchy and in the preparation for the reappearance of the Christ?*

**Answer:** Now this is a silly question. You must have these things. The difference between having a nice home and a cabin is a difference of good work and bad work. For example, if you have a comfortable room where the light is proper, where the smog is less, where the heating and cooling is up to date, then you can produce more and you can think better. Let us say that you are in 90-95 degree heat. You cannot write good things in that heat. Your brain and blood are congested. Now, if you want to write something very beautiful, you need comfortable surroundings. Even the lighting, even the colors, even the shapes in your home must be inspiring so that this inspiration gives you greater ability, greater facility to be impressed, to be inspired, and to put these inspirations and impressions onto the paper or into some artistic expression. Another example is this. Say you want a nice piano because a nice piano makes you more inspired. If the sound is right, whatever you want to compose on it will be better.

If you want to prepare better service, if you want to give better service, you need a better tool and your house is a better tool. If you are making a delicate watch, you need a delicate instrument. Your house is like a delicate instrument.

Now, let us come to the car. For example, I bought a new car. Okay. Why did I do that? I was going to Yosemite to give a lecture and my car stopped five times! I was nervous. I was tired. I was stuck for three or four hours. Now, I do not want to be weak or late in my service. People are waiting for me, 20-25 people, and I am late for several hours.

Now with that lateness I am nervous, and with that nervousness and irritation I have lost my inspiration. I am not as I could be if I went there under better conditions. Okay, now I am driving back and while driving back my car again stopped 10-15 times! I pushed and pulled. Suppose I hurt myself? Suppose I was called on an emergency to go somewhere and I could not go?

Now, what is a car? A car is a tool to make your service better. If you are buying the car for the sake of the car, for the sake of showing that you can have a car, now this is ridiculous. People do that. But if you have a better car, a better horse, you can run faster and reach more people. If I had the money, I would even buy a helicopter. Why?... Because in this way I would not be driving six or seven hours to Yosemite! I could be there in 15 minutes and not be tired! I could give my lecture there for one hour and then go to Escondido and then to Santa Barbara and then return here. In one day I could give four lectures without losing my energy, expending my energy in nonsense cars and transportation and the smog and noise of it all.

Now the young generation must know these things. A better life is a better tool for better service. If you help yourself with greater education and make yourself ready for greater service for your fellowman, you are serving the Hierarchy. The Hierar-

chy is served if you serve the Plan of the Hierarchy. The Plan of the Hierarchy is not served if you have poor tools. Not only must you have the best tools but you must also have better bodies—better physical bodies, better emotional bodies, and better mental bodies.

The reappearance of Christ cannot be accomplished if the workers are hungry, if the workers are not in good health conditions. For example, let us say that Christ came to Washington and we want to go and meet Him but we do not have a car to go meet Him. We walk and walk and twenty days later He goes to China and we cannot follow Him. On the contrary, in the future, to follow Him and be with Him we may need airplanes. You will immediately make the arrangements, immediately have money, immediately have the equipment to see the pictures, to talk with Him, and to be with Him. This is the real challenge. But if you are poor, really poor because you did not work, you did not run with the pace of the development of the race.

Have all these things without attachment. That is the key word. For example, let us say that you have a beautiful house here, but you leave the house and go to India to live with me, for example, in a different mansion. You must go without attaching to your previous possessions because they are not yours. They can be used by others if they are purified with the right means and with the right goals.

I am writing books. Very good. But if I do not care for my health, you will not have those books that I wrote. Health means more money, more comfort, of course yes, better food, a better bed even to sleep in. You have a camera and this camera is taking beautiful pictures but if you do not take care of it or leave it out in the rubbish can, you will not be able to take good pictures. This means that you are going to really care for the means to reach greater goals. But, also, if you are attaching to your home, to your car, for the sake of your car and home, or for your petty amusements and pleasures, then you are lost. You are really poor.

*Question: How does one alleviate the fear of letting go of money and letting it flow out?*

**Answer:** Put yourself in such a position that you know really that you will not lack money, even if you give everything that is in your pocket. You will know that next day new things will come. For example, you have a great business and this business is making yearly \$100,000. Take \$20,000 for your own needs and the \$80,000 give for great causes. Now, when you do that you know that next year you will make another \$100,000 or \$125,000. That is what I know.

If you put yourself in such a condition, you will not be needy and the divine flow will flow into you, into your pockets, into your treasury because you worked for it, because you prepared for it, because you went to the proper universities and colleges or you developed skill in action such as artistry or you developed talents. You know that because you have these things, greater things will be given to you. Or you can change them into their equal balance, which is money. For example, if you are a great dancer, the form of money is in the dance. If you want to make it into money, you can take the money because already you have the check in your hand, which is your dance. Do you understand that?

*Question: Where does the crystallization about prosperity come in, particularly in the popular thinking and teaching about prosperity?*

**Answer:** I think that crystallization comes when people think that they are giving to receive. You are giving 5% to make more money, or you are thinking about your own needs first. Now this is a very bad crystallization. In the new age, we are not thinking about our own needs. We are thinking about the needs of others. The money is coming not for you but for the needs of the others. To use the money in the right way and for the right purpose, you are also developing yourself to function in the best way possible. You are not asking for yourself;

Continued on page 4

Higher Levels...Cont. from page 3

you are asking for the needs of others. The needs of others come first and then your needs. You are becoming rich, able, a genius, talented, prosperous, or whatever, because of it. It must be FOR OTHERS.

*Question: What do you think about affirmations?*

**Answer:** These affirmations that you mention are there just as flattery to the divine ear. If I were a God and you said these things to me, I would be very mad. But before they reach me, they function, they are responded to mechanically because whatever you want, it can be given to you in the lower planes of existence. But then if the affirmation is checked in the higher planes, the things that you got from the lower planes can be taken away from you. For example, you work very hard to make money so that you can have money, but then you lose your health. These affirmations, I do not care about. There is only one affirmation, "God, please help others and if I can help You, please let me know." Now you are doing a fantastic thing!

*Question: To whom do you pray?*

**Answer:** These Laws are very Great Beings. When you are actually praying, you are creating an action in the Cosmic Law and this Cosmic Law is giving the reaction, the answer. If you are not creating action, you will not have reactions. So I do not say that you are praying to this Entity, to that Entity. You can even direct your thoughts to Them, your words to Them, and I think They can be hearing you. But before it reaches Them, the Law will answer and It will enter into action because They are also the parts of the Law.

Prayers are not words. The true prayer is work. It is improving yourself and putting your motives in the right conditions. Purification is prayer. Good intentions are prayers. Aspirations are prayers. Goodwill is a prayer. Even good plans are prayers. Prayer means something that puts some forces and

energies into action. Prayer was given to the children of humanity to teach them how to put the Laws of Nature into action the right way.

*Question: What is the difference between old age prosperity and new-age prosperity?*

**Answer:** Old-age prosperity was prosperity for a prosperous group, a prosperous man, a prosperous church, which means they have more than others; they can handle more money or more matter than others. But the new-age concept of prosperity is being successful in your relations with your Higher Self, with the Hierarchy, with the great Masters, and with the energies of Nature, and channeling them to the right destination to uplift, enlighten, and release people into their divine heritage. If prosperity is possession, it is old age. Prosperity means giving; that is new age. Being a portion of the Cosmos, you are going to be cosmic-oriented and live for the Cosmos, not for yourself alone.

*Question: Can you comment on the following quote from Agni Yoga?*

There is an inner meaning in all things.

On thy mission point out that neither the cares of the house

nor want have stayed thee from the path to Us.

They will make excuses to thee

that want and children impede the way.

But children are flowers of the earth

and poverty is the gift of purification.

They will say to thee,

"It is easy to serve God when thou art rich."

But you, too, have known want.

They will say to thee,

"Thou art fortunate to have friends and helpers."

But you, too, have known the hearts of stone.

Useless is the leader who is not wise in battle.

Directing thy steps toward the heights,

I am arming thee for life's struggles.

Avoid the sluggards — helpers come in growing numbers.

Higher Levels...Cont. from page 4

Not a miracle but a tempered blade is thy life.  
On the way to the Temple  
thou must pass the dust and dirt of the way.

Even a beggar's joy is great at sight of the sun.  
I am with thee.

*(Leaves of Morya's Garden, Vol. I, para. 172)*

**Answer:** Master Morya's quote is right if you understand what poverty means. Master Morya was a king, and He was the richest and the most glorious king, but He was a man who was trying to help the people make their standard of living as high as possible. He was a great consciousness. His consciousness and His ability and His command could not be impressed if He were not rich or if He were not living in those great palaces where He lived — but as a poor man. He knew that all the things that He had belonged to God. Also, He was not sorry if it was all gone, nor too happy if it was all there. It is there just to serve a purpose and the Purpose and the Plan of God.

“They will say to thee, ‘It is easy to serve God when thou art rich.’” Some people say that you must be rich to serve God. They are saying that unless you are rich, you cannot serve. Who said so? M.M. does not say that you must or must not be prosperous, but you are not going to put your whole faith and the foundation of your service to God and your cooperation with God on your richness.

Our intention is not to be rich. Our intention is to serve. And when the richness comes, it will go. We will never be rich because it will always go. When you are rich, it means that you are accumulating — you are accumulating and not giving. That is how you can be rich. But if you are passing it on to the right hands, to the right destination, you are rich in giving but not in accumulating. Even it will not be easier to serve God when you are rich because there is a danger that you can identify yourself with your richness and then totally lose your intention to serve because you have leisure and pleasures of every kind and the ways and means to satisfy your lower self.

Christ said, “First seek the Kingdom of God,” which means raise your consciousness and your being to the level of the Kingdom of God, to Hierarchical thinking, Hierarchical laws and circumstances, and when you have anything or everything you will not be attached to it. So it is not a matter of richness. It is a matter of mastering the matter and using it for the right purpose, as an engineer who has a lot of lumber and he knows how to build the temple.

Purification means you are not identified with matter, with your possessions. You are like a steward, like a bank teller who has so much money in his drawer but he does not own it. You give it, take it, give it, take it, and when you go home you are so happy that you did that service. But you are not identified with the money. You cannot serve God if you are poor, when the word “poor” is translated as “not-havingness.” For example, if you do not have wisdom, knowledge, and health, you cannot serve.

**Question:** *What about spending money?*

**Answer:** Spending money is also wisdom. Give, give, but keep a piece of what you get for yourself, for your health, for your upkeep. Giving the whole does not mean to go hungry. Giving all does not mean keeping yourself naked, not having a house. With your dressing, with your house, with your health, you can make more and give more. It is wisdom when we say that giving more means that you are really ready for a greater cause to give everything to. For example, Christ appears and says to you, “Resign from your job, leave your family, leave your group, and follow Me.” Are you ready? Yes. That is the gift. But it does not mean that He is not going to provide you with clothing or that He is going to make you follow Him naked. That is why He said, “Everything that you need will be given to you.” This also means that you are ready to give it back if they ask for it!

## Leaves From My Spiritual Journey

### Abundance and Prosperity Seminar in London

The seminar on Abundance and Prosperity in Hampton Court was organized with great precision and devotion by Catriona Nason, John Dumigan and Brian Nason. We would like to express our heartfelt gratitude to each of them. We found the House of Prayer in East Molesey to be a very inspiring building with rooms and gardens radiating peace and quiet, which gave us strong feelings of coming home.

Participants came from 4 countries, Sweden, Denmark, the UK and Germany and it was most memorable to note that the Teaching was spread over such a great distance. The group from Germany (there were six of us) had prepared ourselves through discussions and exchanging ideas on abundance and prosperity and how we could create success for ourselves, and whatever needed to be changed in our lives, our emotions, and attitudes in order to be successful. We all had and still have a deep longing for an abundant and successful life on more than one level and this is what drew us to the Seminar. The Questions and Answers on Higher Levels of Prosperity Consciousness left a deep impact on us.

We learned that to be able to give, you need to have. Material things are not the only things that you can give - there is love to give, gratitude to express, and blessings, joy and sharing the knowledge that each of us have. To be able to move forward toward your goals, it is infinitely important to forgive and it is most important to forgive yourself, which at times is most difficult to do. We need to give ourselves permission to have abundance and to be prosperous. Magnanimity is a key ingredient in being aligned with the cosmos, the universe and one-humanity - One with All. Focussing on the real goals and visions and thus debunking limiting thought forms and emotions were some very important themes discussed during the seminar.

We also found some very important points; such as:

- We are successful if we make others successful.
- Knowing that you already have many gifts to distribute
- To give from your heart.

Wholehearted sharing is one of the reasons we can recommend this seminar to all of our friends and relations as it provided such deep insights and a wider horizon on many levels, thanks to Gita's very special way of presenting it to us all. Open-minded and open-hearted people with a sense of the Teaching should find it a most memorable event to partake in, as Gita's clear and pure speech contributes towards a deeper understanding not only for a beginner, but also for the more advanced person. Gita spoke to our hearts and our souls and thus made her whole presentation vastly comprehensive. We have new and better ideas and plans and have been inspired with a better sense of self-worth, self-confidence self-respect - meaning, in order to be respected, you need to respect others as God-given treasures in your life. Human beings are so precious and it will serve us greatly to look behind the masks and facades that are being worn.

We feel a lot more aligned with our inner guidance and are more in touch with our virtues and that is why we will be back next year with all of our children.

God bless all of you, from TSG Germany.  
(Constanze, Janina, Judith, Christine, Monika & Zeitoon)

Dear Gita,

....After coming back I feel very creative and I feel the love for my family, friends and the world increase day by day...It was a great discovery for me to really "realize" what the words OM MANI PADME HUM mean, even by knowing them such a long time! Everywhere I go I feel love radiate. - Thank you so much for your inspiring words and the great work you do!

I hope you had a wonderful time and I send you many greetings from the bottom of my heart!

Yours, Monika from Germany

# Total Prosperity & Abundance

Los Angeles, California  
January 28th-29th, 2006  
A Two-Day Intensive Seminar  
Presented by Gita Saraydarian

The Ancient Wisdom Teachings provide guidelines for total abundance and prosperity in the physical sense—such as money, health, property, family, and friends—as well as for the emotional, mental, and spiritual life.

During this intensive two-day seminar, you will learn how to change your thoughts, wishes, and plans so that prosperity can be yours. If you are willing to do the work, then there is every reason to have a successful and abundant life.

Gita will present the natural laws that govern prosperity and the ways to apply these laws in our daily life. The key to prosperity is to know our blockages to abundance and learn how to remove them. The presentations will include lectures on prosperity, success, visualization and meditation practices to enhance your life, and a step-by-step implementation plan for your continued success and prosperity. You will have access to books, meditation courses, and the plan to have the kind of life you want.

## What are the topics to be presented?

- How to define your prosperity.
- Prosperity Laws of Nature and how they work.
- Visualization plan to receive prosperity and abundance.
- Subconscious recordings and outdated thoughtforms about abundance.
- Spiritual Foundations for Success.
- Psychic Energy and the Fire of Space.
- Your fundamental support system.
- Laws of Success.
- Thoughts and wishes: what is right and what is wrong?
- Implementation Plan for continuous prosperity.
- Advanced levels of prosperity consciousness.

# *Prosperity & Abundance Seminar*

## *November 5th 2005*

The Great Teachers of humanity were very successful people who had every kind of abundance imaginable in their lives. Great Ones taught about the right use of resources and inner gifts so that our entire life is one of joyful abundance. Now we can learn these Teachings and have the prosperity and abundance that we want and need.

**Gita Saraydarian** will present a two-part seminar based on her research and study from Torkom Saraydarian's writings about the true path of prosperity and abundance.

Part One will cover the following topics:

- The Laws of Nature and the Energy flow of the Universe
- Outdated thoughtforms and subconscious recordings that restrict us
