2012 End of the Year Letter from Gita Saraydarian

Dear Friends,

From a very small office on top of a garage 25 years ago this month, with just a single-minded focus to publish Torkom's books, and thanks to the help of generous and dedicated people like you, TSG has become an international publishing and teaching foundation. Today, as I reflect on what has happened to me and to TSG during these last 25 years, I celebrate you and your dedication to the upliftment of humanity.

It is because of your faith, support and trust in us that Torkom's work is reaching all the corners of the world. As we now are expanding our work in crucial ways, and as I give you a brief outline of what we accomplished in 2012 and what we are planning for 2013, I am asking you to please continue your financial support — in year-end giving or a regular monthly commitment, and in your future estate planning.

TSG's humble beginnings

These plans need continued hard work and dedication on our part and also the continued support of our friends and benefactors. I do hope that you continue to support our efforts with renewed optimism and faith in our

work and in the future of humanity.

In December, all esoteric students celebrate the festival of the New Group of World Servers. As this new Season of Joy opens in 2013, we dedicate ourselves to being part of this greater group in serving the needs of humanity.

Please keep TSG and our service in your hearts. May the Great Ones watch over us and inspire us to serve, to live in Beauty, and to fulfill our promise to the Teaching. May you and your family be blessed in every way.

I thank you from the depth of my heart.

With love and gratitude,

Gita Saraydarian
President and Founder

The Year 2012

Starting from the end of 2011 through the Fall of 2012, we were able to complete some key and fundamental projects that were long in waiting. Along with the growing of our Affiliate groups, here is a brief overview of our activities:

1. More Kindle and e-books have been released for a total of 24 to date. These are now available everywhere in the world.

2. The following books were released:

Wisdom of the Zodiac in four volumes
(in e-book and printed versions)

Happiness, Joy, & Bliss
(in e-book and printed versions)

Autobiography of Torkom Saraydarian
(in e-book and printed versions)

From My Heart, Volumes 2 & 3
Torkom's collection of poetry
(printed version)

3. Spanish language books include:

Other Worlds, Volume 1

Occult Meditation

Cooperation and Group Consciousness

Several more books are being translated into Spanish including the *Autobiography* and the *Wisdom of the Zodiac*.

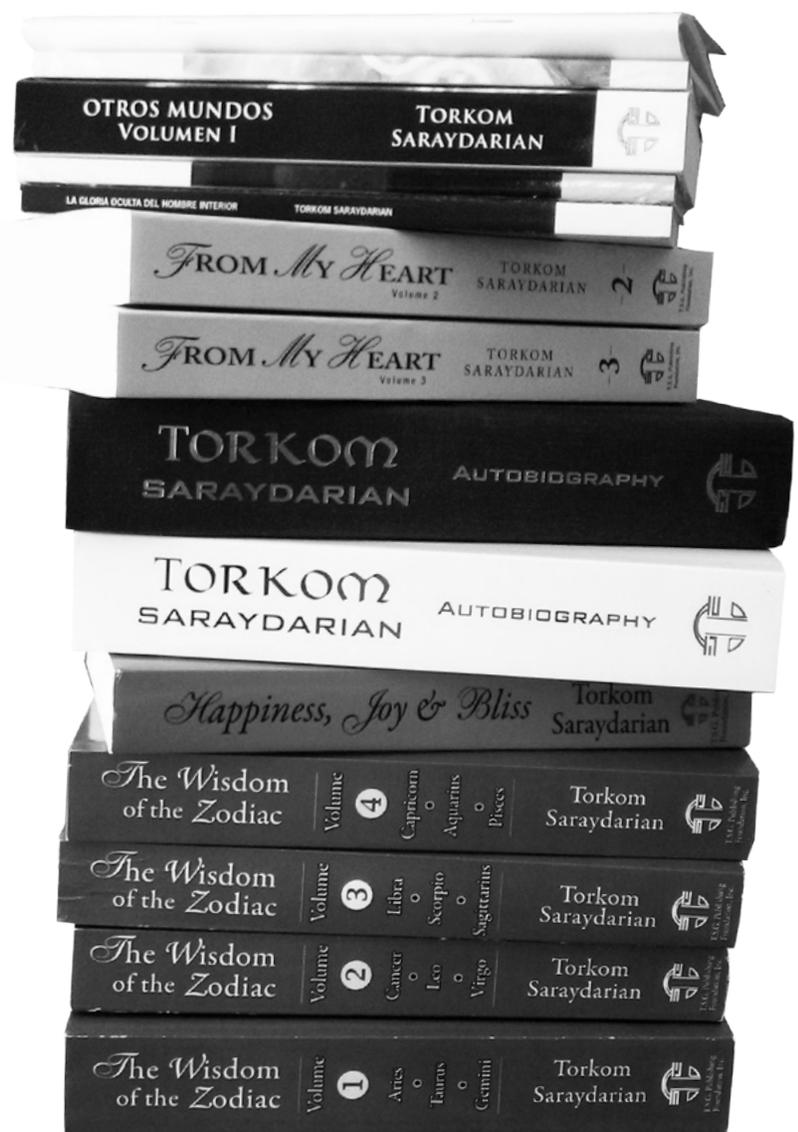

4. *The Wisdom of the Zodiac* series continues to be translated into German.

5. The booklet ***A Daily Discipline of Worship*** was just released in Norwegian. Two booklets are being translated into Swedish; translations are coming from Italy, India and Greece; and ***Joy and Healing*** has just been translated into Hungarian.

6. We have completed the re-mastering into DVD all of Torkom's ***video lectures*** and 600 out of the 900 ***audio lectures***.

7. New ***Joy and Healing groups*** have been formed in Arizona and online. To date, we have three groups with more in the planning stages for next year. Our online student body increased in the last Quarter of 2012 **by 60 new students!**

8. We are continuing with the editing and processing of the remaining manuscripts. Out of 100 unpublished manuscripts in 1997,

TSG's Plans for 2013

40 remain in various levels of production. Several are already in the pipeline to be completed next year.

9. In-depth Wisdom of the Zodiac study classes continue monthly at TSG. Additionally, a [monthly introductory video](#) is now posted on YouTube, open to the public, providing a full moon summary and meditation.

10. Seminars in 2012 included a successful TSG Annual Intensive Seminar at Wesak, a seminar in Sedona, and a seminar in Oklahoma. I look forward to more travels and seminars in the coming year.

11. A new Board of Directors, supplemented by an Advisory Board made up of group elders and experts in various fields, has been created to represent a wide spectrum of our needs and activities. The Board and Advisory members will be responsible to position TSG for future growth and sustainability. This process will insure that the future work of TSG, its leadership and its assets are never compromised, and that TSG and its work will continue into the far future. What we have worked for these past 25 years, and what Torkom worked for his whole life, will never be lost.

Our work will ensure the safety, integrity, and longevity of TSG and Torkom's works.

We continue to focus on our primary purpose: to PUBLISH, DISTRIBUTE, TEACH, and ARCHIVE all of Torkom's creative works so that they are available in perpetuity. Our focus for the last 25 years has been predominantly on publishing Torkom's books. As we near the end of the unpublished works, our focus is beginning to shift to include more attention devoted to the expansion of our teaching and training programs.

2013 will be another exciting and expanding year for us. I have completed the first reading of the manuscript for *Cosmic Magnet* and am astounded at the depth and beauty of this work. The three volumes of *Consciousness* are now being indexed. Our staff is working on several others as well as the completion of new Spanish translations. I know these books and I can tell you they are life-altering — in information and in what they do to deepen your life. I want each of you to share in the reading of these books and to spread them to everyone in the world. In my opinion, the world needs these books like never before.

So, here is a brief summary of TSG's plans for the upcoming year:

1. Books and Publishing

- Continue to add new books on Kindle/e-book
- Continue the translation and publishing of Spanish language books. This is the second largest language in the world and readers are waiting for more titles.
- The following manuscripts are in production stages; the listed titles are in the most advanced state of preparedness:
 - ***Consciousness*** in **three** volumes (includes Group Work, Destiny of Humanity, and Evolution of Consciousness)
 - ***Healing*** in two volumes (advanced teachings on esoteric healing)
 - ***Wisdom of the Zodiac, Volume 1*** in Spanish

- Several other manuscripts are in various stages of completion and will be published according to budget and staff availability

2. Archiving

- Complete the archiving of the audio lectures and continue the process of archiving and safekeeping of all of Torkom's musical compositions.
- Expand our online courses, seminars, and international outreach with particular focus on joy and healing. Planning is underway for new and engaging training courses utilizing the tools available online.
- Find the technical expertise needed for our online classes, live-stream video, and live meetings with students and teachers.

3. A New and Permanent Home for TSG

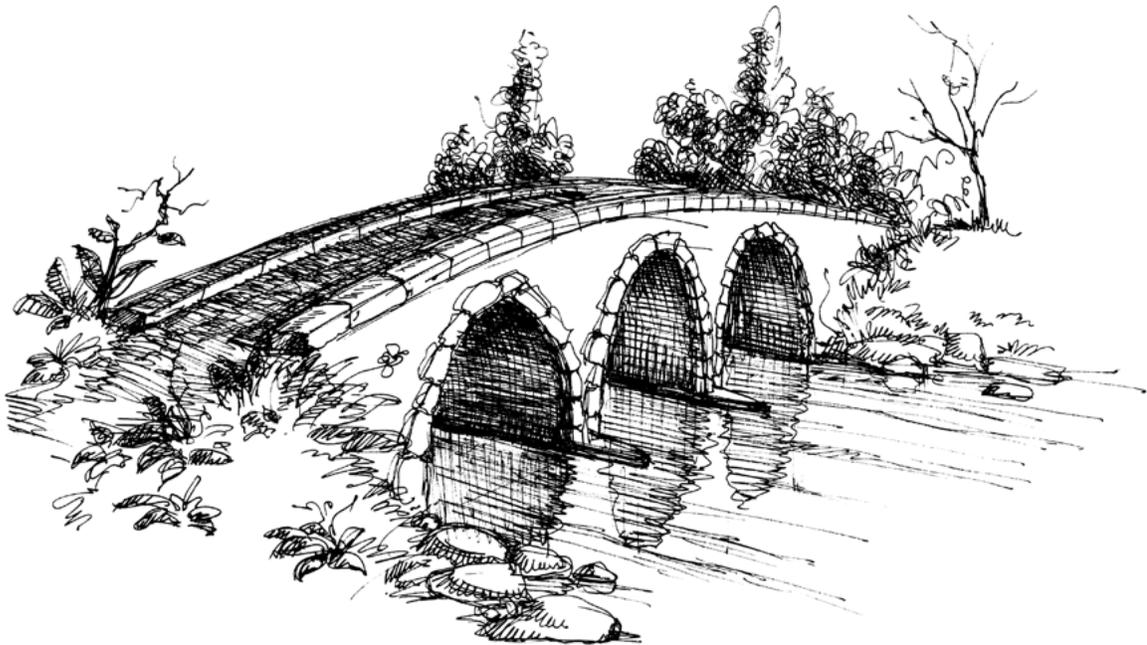

We need to begin the process of finding a permanent home for TSG offices, library, and meeting rooms. This is an important development for the true anchoring of Torkom's works and establishing a permanent home for TSG.

These areas of our work reflect our continuing shift from one of primarily publishing, to that of spreading the Teaching further, engaging students worldwide, and planning for long-term sustainability and continued service into the far future. Greater financial abundance will mean greater expansion of our work. Your gifts and support are a crucial component of TSG's work.
