to guarantee our continuity. Accordingly, the TSG Board identified two major phases:

1. The first phase of TSG's work has been primarily focused on production, distribution, teaching, and archiving of the Torkom's creative works.

2. The second phase is the expansion of the work we have been doing and how this may be accomplished and sustained. Among other areas, we worked on leadership succession policies, guidance for future TSG's leaders, policies for financial stability, guidelines for international work, how to manage a growth in participants in classes and seminars, and the need for an expanded base of supporters and friends of TSG.

We found that a big part of the second phase necessarily involves the establishment of a permanent home and Center for Torkom's works; a teaching, training, and meditation center. We realized that the long term viability and survival of TSG hinges on having a permanent home and center.

We have already begun many of the programs that will support a larger and expanded TSG. And, we have begun the search for a suitable place for the TSG Center in the same region as our current office. As we proceed, we will create a budget, building plans, and create plans for sustainability of the Center. We will release this information as the process unfolds.

We need your support for our TSG Center. This project is huge and will take all of us working together to bring it into fruition.

**Your continued support and participation is very important to us.** We cannot relax our vigilance and our focus nor can we accomplish this huge task without your help.

The work that we do now will ensure that the generations that come after us will enjoy the same wisdom and beauty of Torkom's creative genius. Our work now and in the coming months is pivotal for the long-term viability of TSG and Torkom's influence on humanity.

This is truly a momentous period in the history of TSG Foundation.

We ask for your continued support. Please contribute now and also include TSG in your Estate Planning.

- ✓ **Make a one-time donation at the end of the year.**
- ✓ **Commit to monthly donations throughout the year.**
- ✓ **Include TSG in your Estate Planning.**

Every donation, in any amount made for the Building Fund will be placed in a special account and used specifically for this project.

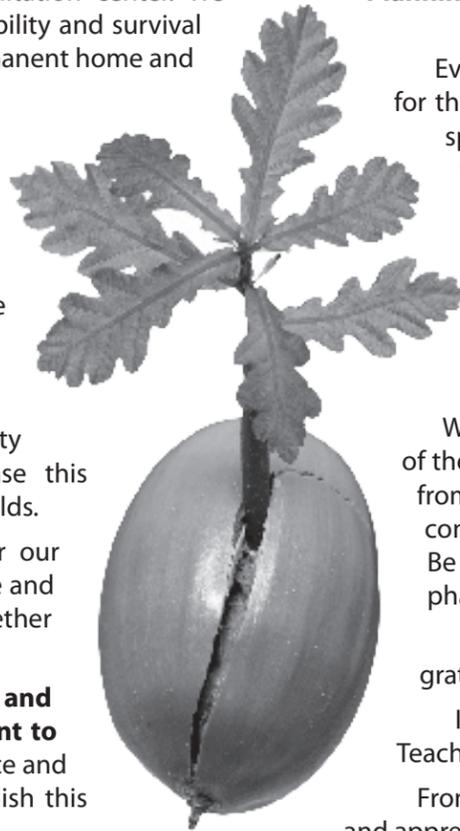

Please do not hesitate to contact us for additional information on any part of our work. We are happy to share information that you need to make your financial decisions.

We have reached this phase because of the continued patronage and support from you and friends of TSG. Please continue to support TSG's activities. Be generous and help us in our new phase of growth and development.

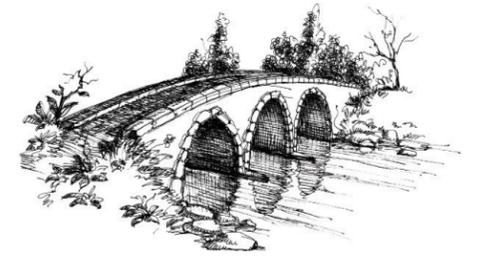

Thank you and our deepest gratitude to you for your support.

I pledge my continued service to the Teaching and Torkom's legacy.

From all of us at TSG, we send you love and appreciation.

**TSG FOUNDATION**  
Working to Help Torkom's Dreams Come True

## 2015 End of the Year Letter from Gita Saraydarian

Dear Friends & TSG Supporters,

This year marks Torkom's 98th Birthday and TSG Foundation's 28th Anniversary. Thanks to your continued and loving support, we are making Torkom's dreams come true. Together, we have achieved much and now we are on the point of taking TSG further than any of us dreamed possible: **we have begun to plan for a permanent home for TSG, a TSG Spiritual Center.**

It was only last November that I wondered how we were going to publish the remaining books and complete the archiving of Torkom's creative works. I asked for help. Within months of sending my letter, donations came and we raised enough money to secure the completion of Torkom's books, with money left over for the audio and written archives. I was deeply moved. The help that we needed desperately had arrived.

With the book publishing phase secured, I turned my attention to the next phase and began discussions with our Board of Directors. I quickly realized that we had reached a momentous period in the history of TSG. We are at a period of time when our decisions, actions, and policies will have a far-reaching effect on the validity and dynamism of our work. What we do now will have a lasting impact on future generations.

Our work does not rely on me alone, nor is it one-generational. It involves all of you and it is multi-generational. Each generation unfolds a part of the petals of the Chalice of the Teaching. Progressively, new generations follow, expanding, enriching, and responding to the needs of a desperate humanity.

Torkom emphasized, over and over in his speeches and writings, that there is a great need for a Center in which the Aquarian Education can be given. My original aim in founding TSG was to be a publisher and then a teacher. After Torkom died, TSG increasingly became the standard bearer for his work and his legacy. We continued to publish books and

teach classes, then we slowly added seminars, annual conferences and an entire curriculum of training courses. We had to save Torkom's original writings and compositions, and organize his library collection. The archive project was launched. Then we created meditation groups, international groups, teaching groups, and study groups to meet student needs.

And now, we need to house all of these activities and collections into a permanent home and Center. Our current location no longer fits our needs. We are housed in a private home in a residential neighborhood and we have run out of space. We need a larger space to contain our work. This is a huge undertaking for TSG and for this, we need your help — every friend, patron, and supporter. I have full faith that this too will be accomplished because I have seen what determination and loving support can do.

We have at our disposal seeds that will grow into giant oak trees. Torkom did his part by providing the firm foundation on which to build. We have been strengthening and slowly building on that foundation. Now, the current leadership of TSG will do our part to expand further and put into place an inner and outer structure that will last far into the future. We will look ahead and put into place a commitment to excellence whose power will ripple through for hundreds of years.

Please take a few minutes to read this report and let me know how you can help TSG move toward the future. Thank you. I look forward to hearing from you.

Highlights from 2015

- We have met all our publishing goals for 2015 with the following releases:
  - **The Art of Teaching**
  - **Passage to Higher Worlds, Sleep & Dreams**
  - **Psychology of Imagination and Visualization**
  - **Prayer**
  - **Self-Actualization & Self-Mastery**
- An additional 15 titles (some may be in multiple volumes), and 6 archival research manuscripts remain to be published.
- The *Stepping Into the Teaching* seminars for Year 3 began in September. The topic is "The Esoteric Causes of Disease and Illness and the path of Discipleship." Seminars are presented the first Sunday of each month through April 2016. Recordings are available on DVD, CD/MP3, and YouTube links.
- Archiving of Torkom's papers and writings continues; library books are being organized into a database; gift books are being mailed to groups.
- There is increased participation in meditation courses and seminars, social media, and monthly *YouTube Wisdom of the Zodiac* classes. The Teacher Training and leadership training programs began in May and we have a viable and very talented group of individuals participating in this program. Four new online study groups have been formed. Our annual Conference at Wesak preparation begins November of each year and grows steadily.
- Translation of books and meditation courses are continuing.
- TSG has a dedicated Board of Directors and Advisors who have created policies for long-term viability and leadership succession, an absolutely essential component of a viable organization.

More New Books?

**Do we need more books? Yes, we do; humanity does.** Torkom's books are the foundation of forming a civil and compassionate human society.

**There is someone out there looking for just these books for inspiration, healing, and return to the faith that Great Ones exist and do guide us and nurture us with Their wisdom.**

I once asked Torkom how we can manage to publish and even read and study so many books. He said that each book has a special message and a special vibration that links it to a part of the Divine Wisdom. Different people respond to different ways of linking to the Divine. Each book is a treasure onto its own. So, he advised, **"Keep publishing, keep spreading the books and the music; humanity is in dire need of the true and sane Teaching. There is never too much wisdom. Humanity needs wisdom to forge the best future."** He advised that when a new book is released, we should read it and broadcast its wisdom in our thoughts, words, and actions.

Read these books, give them as gifts, share the wisdom and help uplift suffering humanity. Distributing the constructive and rhythmic energy of these books is an essential thread to the survival of humanity. Every life changed in the direction of sane spiritual principles is a life enriched and saved.

Can you think of a more needy time for humanity to "seal the door where evil dwells"? Can you think of a more urgent time than now to remove from our individual and collective hearts the hatred and separatism that breeds a welcome home for evil to grow? Can you think of a more urgent time than now where leaders from all faiths, all traditions, all colors, and all over the world need to stand up and remove the breeding ground of hatred and violence? Can we think of a future where our leaders lead us toward more happiness and true prosperity? Only enlightened individuals can grow an enlightened and civil society. A whole new generation of creative thinkers and daring individuals is needed to remove the hatred and fanaticism that continuously sprout and spread when we least suspect it.

The principles given in Torkom's books give us the courage and guidance to create these new thinkers and leaders. No one is exempt; we all need to uproot the hatred and fanatical separatism that infect our lives and the life of humanity, in every part of the world.

The Future of TSG

Every day, I dedicate my heart and soul to this work. Never a day goes by that I do not count my blessings to be afforded this opportunity to serve the Teaching. However, I know I am not ever alone. One person can lead, but it takes a committed group of people to sustain this work. I recognize the tremendous sacrifices and dedication of our TSG Staff and friends like you.

Now, I would like to make an appeal to you: *Please continue to help TSG and see how you can help us build a firm future. We need every single person's contribution to build our future and solidify Torkom's gift to the world.*

**What am I asking from you?**

In October of 2015, the TSG Board of Directors met for two days to discuss the future of TSG Foundation. I told the Board that the time had come to build a TSG Center. If we did not do it soon, all the work that we have done thus far will not continue after the current leadership has passed. We needed
