The five-day seminar is held annually during the energy of Taurus-Wesak Full Moon. The conference will be held at the New TSG Center situated in the beautiful Sonoran Desert in Arizona. The conference consists of opening night, daily lectures, sacred songs, sacred movements, and the Wesak Full Moon ceremony with guided meditation.

Wesak is celebrated annually during the full moon of Taurus.

During that time in the Wesak valley (Himalayas) a powerful spiritual energy is assembled by masters, initiates, and disciples of the Hierarchy as a blessing is poured forth upon our planet.
